16 access; and

17 WHEREAS, The State's wild pheasant population has declined

6 hunters; and

7 WHEREAS, Public hunting areas are the most accessible for

19 controlled pheasant hunting lands; and

1 WHEREAS, Without the Department of Natural Resources'
2 Controlled Pheasant Hunting Program, pheasant hunting in
3 Illinois would virtually cease to exist; and

4 WHEREAS, Illinois pheasant hunters would be displaced and
5 not have adequate access to hunting areas, especially in the
6 State's expanding urban regions; and

7 WHEREAS, The revenues realized by both the State and the
8 local economies within the State would suffer considerably
9 without the continuation of the State's Controlled Pheasant
