2 (1) the student agrees not to use any  
3 performance-enhancing substances on the association's most  
4 current banned drug classes list, and, if the student is  
5 enrolled in high school, the student submits to random  
6 testing for the presence of these substances in the  
7 student's body, in accordance with the program established  
8 under subsection (d) of this Section; and

9 (2) the association obtains from the student's parent a  
10 statement signed by the parent and acknowledging the  
11 following:

25 prescriptive authority may prescribe a  
26 performance-enhancing substance for a person; and

13           (d) The Department of Public Health shall provide oversight  
14           of the annual administration of a performance-enhancing

18           multiple times throughout the athletic season for the presence  
19           of performance-enhancing substances on the association's most  
20           current banned drug classes list in the students' bodies. The  
21           association may alter its current performance-enhancing  
22           substance testing program to comply with this subsection (d).  
23           The testing program must do the following:

24           (1) require the random testing of at least 1,000 high

1           (2) provide for the selection of specific students  
2           described in subdivision (1) of this subsection (d) for  
3           testing through a process that randomly selects students

11           positive test result through a subsequent test conducted as  
12           soon as practicable after the initial test, using a sample  
13           that was obtained at the same time as the sample used for  
14           the initial test;

15           (5) require the testing to be performed only by a  
16           performance-enhancing substance testing laboratory with  
17           current certification from the Substance Abuse and Mental

3 delivering the test sample;

4 (8) provide for a period of ineligibility from  
5 participation in an athletic competition sponsored or  
6 sanctioned by the association for any student with a  
7 confirmed positive test result or any student who refuses  
8 to submit to random testing;

9 (9) provide for a school or team penalty on a  
10 case-by-case basis, to be determined by the contribution of  
11 a student with a confirmed positive test result to the team  
12 or the school's lack of enforcement of the rules of the  
13 testing program or both;

14 (10) provide for a penalty for any coach who knowingly  
15 violates the rules of the testing program; and

16 (11) require that coaches be responsible for providing  
17 a copy of the association's most current banned drug  
18 classes list to every high school student participating in  
19 an athletic competition sponsored or sanctioned by the  
20 association.

21 The Department of Public Health may adopt rules for the  
22 administration of this Section.

23 (e) Results of a performance-enhancing substance test  
24 conducted under subsection (d) of this Section are confidential  
25 and, unless required by court order, may be disclosed only to

10 program, to be distributed as grants through the Department of  
11 Public Health.

13 not apply to the use by a student of a performance-enhancing  
14 substance that is dispensed, prescribed, delivered, or  
15 administered by a medical practitioner for a valid medical  
16 purpose and in the course of professional practice, and the  
17 student is not subject to a period of ineligibility under  
18 subdivision (8) of subsection (d) of this Section on the basis  
19 of that use as long as the student's coach has provided the  
20 student with a copy of the association's most current banned  
21 drug classes list, the student has consulted with his or her  
22 medical practitioner to confirm the valid use of the substance,  
23 and the student has notified his or her coach or a school  
24 administrator of a prescription for the use of the substance  
25 for valid medical purposes. Students that are prescribed such a  
26 substance, after receiving a copy of the association's most

1 current banned drug classes list, are required to provide  
2 notice of that prescription at the time the prescription is  
3 issued. Any information concerning a student's use of a  
4 performance-enhancing substance obtained by a coach or school  
5 administrator under this subsection (g) is confidential and may  
6 be disclosed only to those persons necessary to the  
7 determination of eligibility under this subsection (g).

8 (h) Neither the association nor any of its directors or  
9 employees shall be liable and no cause of action may be brought  
10 against the association or any of its directors or employees  
11 for damages in connection with the performance of the  
12 association's responsibilities under this Section, unless an  
13 act or omission involved willful or wanton conduct.

14 (i) This Section is repealed on July 1, 2011.
