#### SYNOPSIS AS INTRODUCED:

See Index

Amends the Illinois Vehicle Code. Provides that a person is guilty of a non-probationary Class 3 felony (rather than a Class 4 felony) when the person is convicted of driving under the influence (DUI) of alcohol, other drug or drugs, intoxicating compound or compounds, or any combination thereof (prohibited substances), (rather than the person being convicted of a DUI violation for a second time) and has previously been convicted of reckless homicide or a similar provision of a law of another state in which the person was determined to have been under the influence of prohibited substances as an element of the offense, or in committing a DUI violation, the person was involved in a motor vehicle, snowmobile, all-terrain vehicle, or watercraft accident that resulted in the death of another person, when the DUI violation was a proximate cause of the death. Provides that evidence of a person's blood, urine, breath or other bodily substance concentration of prohibited substances is admissible when gathered by a trained phlebotomist (rather than a trained phlebotomist acting under the direction of a licensed physician) in any civil or criminal action or proceeding arising out of an DUI arrest. Provides that blood or urine tests (rather than only blood tests) performed for the purpose of determining the concentration of prohibited substances are admissible evidence as a business record exception to the hearsay rule in prosecutions for a DUI violation or a similar provision of a local ordinance, or in prosecutions for reckless homicide and makes corresponding changes in the Boat Registration and Safety Act and Snowmobile Registration and Safety Act. 23                 (625 ILCS 5/11-501.2) (from Ch. 95 1/2, par. 11-501.2)  
24                 Sec. 11-501.2. Chemical and other tests.

25           (a) Upon the trial of any civil or criminal action or

1 proceeding arising out of an arrest for an offense as defined  
2 in Section 11-501 or a similar local ordinance or proceedings  
3 pursuant to Section 2-118.1, evidence of the concentration of  
4 alcohol, other drug or drugs, or intoxicating compound or  
5 compounds, or any combination thereof in a person's blood or  
6 breath at the time alleged, as determined by analysis of the  
7 person's blood, urine, breath or other bodily substance, shall  
8 be admissible. Where such test is made the following provisions  
9 shall apply:

10 1. Chemical analyses of the person's blood, urine,  
11 breath or other bodily substance to be considered valid  
12 under the provisions of this Section shall have been  
13 performed according to standards promulgated by the  
14 Department of State Police by a licensed physician,  
15 registered nurse, trained phlebotomist ~~acting under the~~  
16 ~~direction of a licensed physician~~, certified paramedic, or  
17 other individual possessing a valid permit issued by that  
18 Department for this purpose. The Director of State Police  
19 is authorized to approve satisfactory techniques or  
20 methods, to ascertain the qualifications and competence of  
21 individuals to conduct such analyses, to issue permits  
22 which shall be subject to termination or revocation at the  
23 discretion of that Department and to certify the accuracy  
24 of breath testing equipment. The Department of State Police  
25 shall prescribe regulations as necessary to implement this  
26 Section.

1           2. When a person in this State shall submit to a blood  
2 test at the request of a law enforcement officer under the  
3 provisions of Section 11-501.1, only a physician  
4 authorized to practice medicine, a registered nurse,  
5 trained phlebotomist, or certified paramedic, or other  
6 qualified person approved by the Department of State Police  
7 may withdraw blood for the purpose of determining the  
8 alcohol, drug, or alcohol and drug content therein. This  
9 limitation shall not apply to the taking of breath or urine  
10 specimens.

11           When a blood test of a person who has been taken to an  
12 adjoining state for medical treatment is requested by an  
13 Illinois law enforcement officer, the blood may be  
14 withdrawn only by a physician authorized to practice  
15 medicine in the adjoining state, a registered nurse, a  
16 trained phlebotomist acting under the direction of the  
17 physician, or certified paramedic. The law enforcement  
18 officer requesting the test shall take custody of the blood  
19 sample, and the blood sample shall be analyzed by a  
20 laboratory certified by the Department of State Police for  
21 that purpose.

22           3. The person tested may have a physician, or a  
23 qualified technician, chemist, registered nurse, or other  
24 qualified person of their own choosing administer a  
25 chemical test or tests in addition to any administered at  
26 the direction of a law enforcement officer. The failure or

1 inability to obtain an additional test by a person shall  
2 not preclude the admission of evidence relating to the test  
3 or tests taken at the direction of a law enforcement  
4 officer.

5 4. Upon the request of the person who shall submit to a  
6 chemical test or tests at the request of a law enforcement  
7 officer, full information concerning the test or tests  
8 shall be made available to the person or such person's  
9 attorney.

10 5. Alcohol concentration shall mean either grams of  
11 alcohol per 100 milliliters of blood or grams of alcohol  
12 per 210 liters of breath.

13 (b) Upon the trial of any civil or criminal action or  
14 proceeding arising out of acts alleged to have been committed  
15 by any person while driving or in actual physical control of a  
16 vehicle while under the influence of alcohol, the concentration  
17 of alcohol in the person's blood or breath at the time alleged  
18 as shown by analysis of the person's blood, urine, breath, or  
19 other bodily substance shall give rise to the following  
20 presumptions:

21 1. If there was at that time an alcohol concentration  
22 of 0.05 or less, it shall be presumed that the person was  
23 not under the influence of alcohol.

24 2. If there was at that time an alcohol concentration  
25 in excess of 0.05 but less than 0.08, such facts shall not  
26 give rise to any presumption that the person was or was not

1 under the influence of alcohol, but such fact may be  
2 considered with other competent evidence in determining  
3 whether the person was under the influence of alcohol.

4 3. If there was at that time an alcohol concentration  
5 of 0.08 or more, it shall be presumed that the person was  
6 under the influence of alcohol.

7 4. The foregoing provisions of this Section shall not  
8 be construed as limiting the introduction of any other  
9 relevant evidence bearing upon the question whether the  
10 person was under the influence of alcohol.

11 (c) 1. If a person under arrest refuses to submit to a  
12 chemical test under the provisions of Section 11-501.1,  
13 evidence of refusal shall be admissible in any civil or  
14 criminal action or proceeding arising out of acts alleged to  
15 have been committed while the person under the influence of  
16 alcohol, other drug or drugs, or intoxicating compound or  
17 compounds, or any combination thereof was driving or in actual  
18 physical control of a motor vehicle.

19 2. Notwithstanding any ability to refuse under this  
20 Code to submit to these tests or any ability to revoke the  
21 implied consent to these tests, if a law enforcement  
22 officer has probable cause to believe that a motor vehicle  
23 driven by or in actual physical control of a person under  
24 the influence of alcohol, other drug or drugs, or  
25 intoxicating compound or compounds, or any combination

1           thereof has caused the death or personal injury to another,  
2           that person shall submit, upon the request of a law  
3           enforcement officer, to a chemical test or tests of his or  
4           her blood, breath or urine for the purpose of determining  
5           the alcohol content thereof or the presence of any other  
6           drug or combination of both.

7           This provision does not affect the applicability of or  
8           imposition of driver's license sanctions under Section  
9           11-501.1 of this Code.

10           3. For purposes of this Section, a personal injury  
11           includes any Type A injury as indicated on the traffic  
12           accident report completed by a law enforcement officer that  
13           requires immediate professional attention in either a  
14           doctor's office or a medical facility. A Type A injury  
15           includes severe bleeding wounds, distorted extremities,  
16           and injuries that require the injured party to be carried  
17           from the scene.

20           (625 ILCS 5/11-501.4) (from Ch. 95 1/2, par. 11-501.4)

21           Sec. 11-501.4. Admissibility of chemical tests of blood or  
22           urine conducted in the regular course of providing emergency  
23           medical treatment.

24           (a) Notwithstanding any other provision of law, the results  
25           of blood or urine tests performed for the purpose of

1 determining the content of alcohol, other drug or drugs, or  
2 intoxicating compound or compounds, or any combination  
3 thereof, of an individual's blood or urine conducted upon  
4 persons receiving medical treatment in a hospital emergency  
5 room are admissible in evidence as a business record exception  
6 to the hearsay rule only in prosecutions for any violation of  
7 Section 11-501 of this Code or a similar provision of a local  
8 ordinance, or in prosecutions for reckless homicide brought  
9 under the Criminal Code of 1961, when each of the following  
10 criteria are met:

12 blood or urine were ordered in the regular course of  
13 providing emergency medical treatment and not at the  
14 request of law enforcement authorities;

15 (2) the chemical tests performed upon an individual's  
16 blood or urine were performed by the laboratory routinely  
17 used by the hospital; and

18 (3) results of chemical tests performed upon an  
19 individual's blood or urine are admissible into evidence
