1

HOUSE RESOLUTION

2

WHEREAS, Both the public and numerous states have shown great interest in high-speed rail as an efficient and environmentally friendly means of moving people and creating economic activity; and

3

4

5

6

WHEREAS, A 2,250-mile Midwestern high-speed rail network as envisioned under the United States Department of Transportation's high-speed corridor designations could create more than 1 million permanent jobs and more than 450,000 construction jobs in the region; and

7

8

9

10

11

WHEREAS, Outside of California, the Midwest has the highest concentration of cities with a population of more than 300,000; most of those cities, including Chicago, Detroit, Indianapolis, Milwaukee, Cleveland, Minneapolis, St. Louis, and Cincinnati, could be served by a Midwest high-speed rail network; these metropolitan areas alone represent nearly 10% of the U.S. population and the Midwest region is home to one-third of the U.S. population; and

12

13

14

15

16

17

18

19

WHEREAS, In 2009, President Obama and the United States Congress demonstrated leadership and vision by jumpstarting high speed rail plans in the United States with an \$8 billion allocation for high speed rail funding in the American Recovery

20

21

22

1 and Reinvestment Act; and

2 WHEREAS, The Federal Rail Administration received  
3 pre-applications from 40 states totaling \$103 billion this year  
4 and ultimately received 45 applications from 23 states totaling  
5 \$50 billion, as well as an additional \$7 billion in requests  
6 for corridor studies; these figures ultimately dwarfed the \$8  
7 billion to be allocated under the American Recovery and  
8 Reinvestment Act; and

9 WHEREAS, In order to meet the demonstrated demand for high  
10 speed rail of at least \$57 billion, the federal government  
11 needs to spend \$8 billion every year for the next 7 years; and

12 WHEREAS, The United States Congress is currently debating  
13 the amount of high speed rail funding to put into the annual  
14 budget this fall; while the U.S. House of Representatives  
15 appropriated \$4 billion in the 2010 transportation  
16 appropriations bill (H.R. 3288), the U.S. Senate only  
17 appropriated \$1.2 billion in its version; and

18 WHEREAS, A conference committee is set to finalize the  
19 allocation of high speed rail funding in the FY2010 federal  
20 budget; and

21 WHEREAS, The amount of high speed rail funding in the first

1 federal budget since passage of the stimulus bill will  
2 determine whether or not the nation will continue to  
3 aggressively invest in high speed rail; the difference between  
4 the House's \$4 billion allocation for high speed rail and the  
5 Senate's \$1.2 billion for high speed rail is dramatic; and

6 WHEREAS, The State of Illinois has appropriated funds for  
7 high speed rail; the Illinois General Assembly has allocated  
8 more than \$850 million for railroad infrastructure in the  
9 capital bill, the single largest legislative-enacted  
10 appropriation of any state in the history of the nation for  
11 railroad infrastructure; therefore, be it

12 RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE  
13 NINETY-SIXTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we  
14 urge the United States Senate to agree with the United States  
15 House of Representatives and spend \$4 billion on high speed  
16 rail in the FY2010 budget in order to match the commitment to  
17 high speed rail demonstrated by the State of Illinois; and be  
18 it further

19 RESOLVED, That we specifically urge U.S. Senators Dick  
20 Durbin and Roland Burris to push for a \$4 billion allocation  
21 for high speed rail in the FY2010 budget; and be it further

22 RESOLVED, That suitable copies of this resolution be

1 presented to the Majority and Minority Leaders of the United  
2 States Senate and United States Senators Dick Durbin and Roland  
3 Burris.
