

1 AN ACT concerning State government.

2 **Be it enacted by the People of the State of Illinois,**
3 **represented in the General Assembly:**

4 Section 5. The Illinois Procurement Code is amended by
5 changing Section 30-30 as follows:

6 (30 ILCS 500/30-30)

7 Sec. 30-30. Contracts in excess of \$250,000. For building
8 construction contracts in excess of \$250,000, separate
9 specifications shall be prepared for all equipment, labor, and
10 materials in connection with the following 5 subdivisions of
11 the work to be performed:

12 (1) plumbing;

13 (2) heating, piping, refrigeration, and automatic
14 temperature control systems, including the testing and
15 balancing of those systems;

16 (3) ventilating and distribution systems for
17 conditioned air, including the testing and balancing of
18 those systems;

19 (4) electric wiring; and

20 (5) general contract work.

21 The specifications must be so drawn as to permit separate
22 and independent bidding upon each of the 5 subdivisions of
23 work. All contracts awarded for any part thereof shall award

1 the 5 subdivisions of work separately to responsible and
2 reliable persons, firms, or corporations engaged in these
3 classes of work. The contracts, at the discretion of the
4 construction agency, may be assigned to the successful bidder
5 on the general contract work or to the successful bidder on the
6 subdivision of work designated by the construction agency
7 before the bidding as the prime subdivision of work, provided
8 that all payments will be made directly to the contractors for
9 the 5 subdivisions of work upon compliance with the conditions
10 of the contract. A contract may be let for one or more
11 buildings in any project to the same contractor. The
12 specifications shall require, however, that unless the
13 buildings are identical, a separate price shall be submitted
14 for each building. The contract may be awarded to the lowest
15 responsible bidder for each or all of the buildings included in
16 the specifications.
