97TH GENERAL ASSEMBLY

State of Illinois

2011 and 2012

HB6252

by Rep. André M. Thapedi

SYNOPSIS AS INTRODUCED:

See Index

Amends the State Employees Group Insurance Act of 1971. Shifts the costs of health insurance coverage for future employees of certain higher education institutions from the State to those higher education institutions. Creates a new health benefit program for those employees, once they become annuitants, and for their dependent beneficiaries. Terminates provisions providing for the ongoing transfer of funds from the General Revenue Fund to the Teacher Health Insurance Security Fund and the Community College Health Insurance Security Fund. Amends the Illinois Pension Code. Requires certain employers to provide a tax-sheltered annuity retirement plan to eligible employees. Requires current members and participants to elect whether to maintain their current benefits in the State-funded retirement systems. Prohibits the State-funded retirement systems from accepting new members or participants. Changes the amount of the required State contributions to the State-funded retirement systems and, in the State Universities and Downstate Teacher Articles, shifts the liability for making those contributions to employers. Amends the State Pension Funds Continuing Appropriation Act. Terminates continuing appropriations from the General Revenue Fund to the Teacher Health Insurance Security Fund and the Community College Health Insurance Security Fund. Amends the State Mandates Act to require implementation without reimbursement. Effective immediately.

PENSION IMPACT NOTE ACT MAY APPLY

STATE MANDATES ACT MAY REQUIRE REIMBURSEMENT

A BILL FOR

AN ACT concerning public employee benefits.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Legislative findings. The General Assembly hereby finds that:

(1) the last two decades of the Twentieth Century saw simultaneously robust growth in bond and stock markets, which boosted funding for promised benefits;

(2) there was a tendency, as a result, to spend that newfound wealth by granting higher benefits or by providing employers substantial contribution reductions;

(3) benefit levels were raised to what now appear to be unsustainable levels, given prevailing financial constraints;

(4) applying reductions only to new hires does not produce meaningful savings for many years and creates stark intergenerational disparity;

(5) current required contributions are higher than the State budget can tolerate during current severe economic distress, and near-term reductions will not reduce ultimate costs, but distribute them differently, creating an intergenerational debt transfer;

(6) financial markets will offer fewer and lower-returning investment opportunities; and

(7) many funds and plan sponsors are interested in less volatility after the experiences of the past decade.

Section 5. The State Employees Group Insurance Act of 1971 is amended by changing Sections 3, 6.6, and 6.10 and by adding Sections 6.10A and 6.10B as follows:

(5 ILCS 375/3) (from Ch. 127, par. 523)

Sec. 3. Definitions. Unless the context otherwise requires, the following words and phrases as used in this Act shall have the following meanings. The Department may define these and other words and phrases separately for the purpose of implementing specific programs providing benefits under this Act.

(a) "Administrative service organization" means any person, firm or corporation experienced in the handling of claims which is fully qualified, financially sound and capable of meeting the service requirements of a contract of administration executed with the Department.

(b) "Annuitant" means (1) an employee who retires, or has retired, on or after January 1, 1966 on an immediate annuity under the provisions of Articles 2, 14 (including an employee who has elected to receive an alternative retirement cancellation payment under Section 14-108.5 of the Illinois Pension Code in lieu of an annuity), 15 (including an employee who has retired under the optional retirement program established under Section 15-158.2), paragraphs (2), (3), or (5) of Section 16-106, or Article 18 of the Illinois Pension Code; (2) any person who was receiving group insurance coverage under this Act as of March 31, 1978 by reason of his status as an annuitant, even though the annuity in relation to which such coverage was provided is a proportional annuity based on less than the minimum period of service required for a retirement annuity in the system involved; (3) any person not otherwise covered by this Act who has retired as a participating member under Article 2 of the Illinois Pension Code but is ineligible for the retirement annuity under Section 2-119 of the Illinois Pension Code; (4) the spouse of any person who is receiving a retirement annuity under Article 18 of the Illinois Pension Code and who is covered under a group health insurance program sponsored by a governmental employer other than the State of Illinois and who has irrevocably elected to waive his or her coverage under this Act and to have his or her spouse considered as the "annuitant" under this Act and not as a "dependent"; or (5) an employee who retires, or has retired, from a qualified position, as determined according to rules promulgated by the Director, under a qualified local government, a qualified rehabilitation facility, a qualified domestic violence shelter or service, or a qualified child advocacy center. (For definition of "retired employee", see (p) post).

(b-5) (Blank).

(b-6) (Blank).

(b-7) (Blank).

(c) "Carrier" means (1) an insurance company, a corporation organized under the Limited Health Service Organization Act or the Voluntary Health Services Plan Act, a partnership, or other nongovernmental organization, which is authorized to do group life or group health insurance business in Illinois, or (2) the State of Illinois as a self-insurer.

(d) "Compensation" means salary or wages payable on a regular payroll by the State Treasurer on a warrant of the State Comptroller out of any State, trust or federal fund, or by the Governor of the State through a disbursing officer of the State out of a trust or out of federal funds, or by any Department out of State, trust, federal or other funds held by the State Treasurer or the Department, to any person for personal services currently performed, and ordinary or accidental disability benefits under Articles 2, 14, 15 (including ordinary or accidental disability benefits under the optional retirement program established under Section 15-158.2), paragraphs (2), (3), or (5) of Section 16-106, or Article 18 of the Illinois Pension Code, for disability incurred after January 1, 1966, or benefits payable under the Workers' Compensation or Occupational Diseases Act or benefits payable under a sick pay plan established in accordance with Section 36 of the State Finance Act. "Compensation" also means salary or wages paid to an employee of any qualified local government, qualified rehabilitation facility, qualified domestic violence shelter or service, or qualified child advocacy center.

(e) "Commission" means the State Employees Group Insurance Advisory Commission authorized by this Act. Commencing July 1, 1984, "Commission" as used in this Act means the Commission on Government Forecasting and Accountability as established by the Legislative Commission Reorganization Act of 1984.

(f) "Contributory", when referred to as contributory coverage, shall mean optional coverages or benefits elected by the member toward the cost of which such member makes contribution, or which are funded in whole or in part through the acceptance of a reduction in earnings or the foregoing of an increase in earnings by an employee, as distinguished from noncontributory coverage or benefits which are paid entirely by the State of Illinois without reduction of the member's salary.

(g) "Department" means any department, institution, board, commission, officer, court or any agency of the State government receiving appropriations and having power to certify payrolls to the Comptroller authorizing payments of salary and wages against such appropriations as are made by the General Assembly from any State fund, or against trust funds held by the State Treasurer and includes boards of trustees of the retirement systems created by Articles 2, 14, 15, 16 and 18 of the Illinois Pension Code. "Department" also includes the Illinois Comprehensive Health Insurance Board, the Board of

Examiners established under the Illinois Public Accounting Act, and the Illinois Finance Authority.

(h) "Dependent", when the term is used in the context of the health and life plan, means a member's spouse and any child (1) from birth to age 26 including an adopted child, a child who lives with the member from the time of the filing of a petition for adoption until entry of an order of adoption, a stepchild or adjudicated child, or a child who lives with the member if such member is a court appointed guardian of the child or (2) age 19 or over who is mentally or physically disabled from a cause originating prior to the age of 19 (age 26 if enrolled as an adult child dependent). For the health plan only, the term "dependent" also includes (1) any person enrolled prior to the effective date of this Section who is dependent upon the member to the extent that the member may claim such person as a dependent for income tax deduction purposes and (2) any person who has received after June 30, 2000 an organ transplant and who is financially dependent upon the member and eligible to be claimed as a dependent for income tax purposes. A member requesting to cover any dependent must provide documentation as requested by the Department of Central Management Services and file with the Department any and all forms required by the Department.

(i) "Director" means the Director of the Illinois Department of Central Management Services or of any successor agency designated to administer this Act.

(j) "Eligibility period" means the period of time a member has to elect enrollment in programs or to select benefits without regard to age, sex or health.

(k) "Employee" means and includes each officer or employee in the service of a department who (1) receives his compensation for service rendered to the department on a warrant issued pursuant to a payroll certified by a department or on a warrant or check issued and drawn by a department upon a trust, federal or other fund or on a warrant issued pursuant to a payroll certified by an elected or duly appointed officer of the State or who receives payment of the performance of personal services on a warrant issued pursuant to a payroll certified by a Department and drawn by the Comptroller upon the State Treasurer against appropriations made by the General Assembly from any fund or against trust funds held by the State Treasurer, and (2) is employed full-time or part-time in a position normally requiring actual performance of duty during not less than 1/2 of a normal work period, as established by the Director in cooperation with each department, except that persons elected by popular vote will be considered employees during the entire term for which they are elected regardless of hours devoted to the service of the State, and (3) except that "employee" does not include any person who is not eligible by reason of such person's employment to participate in one of the State retirement systems under Articles 2, 14, 15 (either the regular Article 15 system or the optional retirement program established under Section 15-158.2) or 18, or under paragraph (2), (3), or (5) of Section 16-106, of the Illinois Pension Code, but such term does include persons who are employed during the 6 month qualifying period under Article 14 of the Illinois Pension Code. Such term also includes any person who (1) after January 1, 1966, is receiving ordinary or accidental disability benefits under Articles 2, 14, 15 (including ordinary or accidental disability benefits under the optional retirement program established under Section 15-158.2), paragraphs (2), (3), or (5) of Section 16-106, or Article 18 of the Illinois Pension Code, for disability incurred after January 1, 1966, (2) receives total permanent or total temporary disability under the Workers' Compensation Act or Occupational Disease Act as a result of injuries sustained or illness contracted in the course of employment with the State of Illinois, or (3) is not otherwise covered under this Act and has retired as a participating member under Article 2 of the Illinois Pension Code but is ineligible for the retirement annuity under Section 2-119 of the Illinois Pension Code. However, a person who satisfies the criteria of the foregoing definition of "employee" except that such person is made ineligible to participate in the State Universities Retirement System by clause (4) of subsection (a) of Section 15-107 of the Illinois Pension Code is also an "employee" for the purposes of this Act. "Employee" also includes any person receiving or eligible for benefits under a sick pay plan established in accordance with Section 36 of the State Finance Act. "Employee" also includes (i) each officer or employee in the service of a qualified local government, including persons appointed as trustees of sanitary districts regardless of hours devoted to the service of the sanitary district, (ii) each employee in the service of a qualified rehabilitation facility, (iii) each full-time employee in the service of a qualified domestic violence shelter or service, and (iv) each full-time employee in the service of a qualified child advocacy center, as determined according to rules promulgated by the Director. <u>Notwithstanding any other provision of this subsection (k), "employee" does not include a person first employed on or after the effective date of this amendatory Act of the 97th General Assembly by an employer listed under Section 15-106 of the Illinois Pension Code.</u>

(l) "Member" means an employee, annuitant, retired employee or survivor. In the case of an annuitant or retired employee who first becomes an annuitant or retired employee on or after the effective date of this amendatory Act of the 97th General Assembly, the individual must meet the minimum vesting requirements of the applicable retirement system in order to be eligible for group insurance benefits under that system. In the case of a survivor who first becomes a survivor on or after the effective date of this amendatory Act of the 97th General Assembly, the deceased employee, annuitant, or retired employee upon whom the annuity is based must have been eligible to participate in the group insurance system under the applicable retirement system in order for the survivor to be eligible for group insurance benefits under that system.

(m) "Optional coverages or benefits" means those coverages or benefits available to the member on his or her voluntary election, and at his or her own expense.

(n) "Program" means the group life insurance, health benefits and other employee benefits designed and contracted for by the Director under this Act.

(o) "Health plan" means a health benefits program offered by the State of Illinois for persons eligible for the plan.

(p) "Retired employee" means any person who would be an annuitant as that term is defined herein but for the fact that such person retired prior to January 1, 1966. Such term also includes any person formerly employed by the University of Illinois in the Cooperative Extension Service who would be an annuitant but for the fact that such person was made ineligible to participate in the State Universities Retirement System by clause (4) of subsection (a) of Section 15-107 of the Illinois Pension Code.

(q) "Survivor" means a person receiving an annuity as a survivor of an employee or of an annuitant. "Survivor" also includes: (1) the surviving dependent of a person who satisfies the definition of "employee" except that such person is made ineligible to participate in the State Universities Retirement System by clause (4) of subsection (a) of Section 15-107 of the

Illinois Pension Code; (2) the surviving dependent of any person formerly employed by the University of Illinois in the Cooperative Extension Service who would be an annuitant except for the fact that such person was made ineligible to participate in the State Universities Retirement System by clause (4) of subsection (a) of Section 15-107 of the Illinois Pension Code; and (3) the surviving dependent of a person who was an annuitant under this Act by virtue of receiving an alternative retirement cancellation payment under Section 14-108.5 of the Illinois Pension Code. <u>Notwithstanding any other provision of this subsection (q), "survivor" does not include a person receiving an annuity as a survivor of a person first employed on or after the effective date of this amendatory Act of the 97th General Assembly by an employer listed under Section 15-106 of the Illinois Pension Code.</u>

(q-2) "SERS" means the State Employees' Retirement System of Illinois, created under Article 14 of the Illinois Pension Code.

(q-3) "SURS" means the State Universities Retirement System, created under Article 15 of the Illinois Pension Code.

(q-4) "TRS" means the Teachers' Retirement System of the State of Illinois, created under Article 16 of the Illinois Pension Code.

(q-5) (Blank).

(q-6) (Blank).

(q-7) (Blank).

(r) "Medical services" means the services provided within the scope of their licenses by practitioners in all categories licensed under the Medical Practice Act of 1987.

(s) "Unit of local government" means any county, municipality, township, school district (including a combination of school districts under the Intergovernmental Cooperation Act), special district or other unit, designated as a unit of local government by law, which exercises limited governmental powers or powers in respect to limited governmental subjects, any not-for-profit association with a membership that primarily includes townships and township officials, that has duties that include provision of research service, dissemination of information, and other acts for the purpose of improving township government, and that is funded wholly or partly in accordance with Section 85-15 of the Township Code; any not-for-profit corporation or association, with a membership consisting primarily of municipalities, that operates its own utility system, and provides research, training, dissemination of information, or other acts to promote cooperation between and among municipalities that provide utility services and for the advancement of the goals and purposes of its membership; the Southern Illinois Collegiate Common Market, which is a consortium of higher education institutions in Southern Illinois; the Illinois Association of Park Districts; and any hospital provider that is owned by a county that has 100 or fewer hospital beds and has not already joined the program. "Qualified local government" means a unit of local government approved by the Director and participating in a program created under subsection (i) of Section 10 of this Act.

(t) "Qualified rehabilitation facility" means any not-for-profit organization that is accredited by the Commission on Accreditation of Rehabilitation Facilities or certified by the Department of Human Services (as successor to the Department of Mental Health and Developmental Disabilities) to provide services to persons with disabilities and which receives funds from the State of Illinois for providing those services, approved by the Director and participating in a program created under subsection (j) of Section 10 of this Act.

(u) "Qualified domestic violence shelter or service" means any Illinois domestic violence shelter or service and its administrative offices funded by the Department of Human Services (as successor to the Illinois Department of Public Aid), approved by the Director and participating in a program created under subsection (k) of Section 10.

(v) "TRS benefit recipient" means a person who:

(1) is not a "member" as defined in this Section; and

(2) is receiving a monthly benefit or retirement annuity under Article 16 of the Illinois Pension Code; and

(3) either (i) has at least 8 years of creditable service under Article 16 of the Illinois Pension Code, or

(ii) was enrolled in the health insurance program offered under that Article on January 1, 1996, or (iii) is the survivor of a benefit recipient who had at least 8 years of creditable service under Article 16 of the Illinois Pension Code or was enrolled in the health insurance program offered under that Article on the effective date of this amendatory Act of 1995, or (iv) is a recipient or survivor of a recipient of a disability benefit under Article 16 of the Illinois Pension Code.

(w) "TRS dependent beneficiary" means a person who:

(1) is not a "member" or "dependent" as defined in this Section; and

(2) is a TRS benefit recipient's: (A) spouse, (B) dependent parent who is receiving at least half of his or her support from the TRS benefit recipient, or (C) natural, step, adjudicated, or adopted child who is (i) under age 26, (ii) was, on January 1, 1996, participating as a dependent beneficiary in the health insurance program offered under Article 16 of the Illinois Pension Code, or (iii) age 19 or over who is mentally or physically disabled from a cause originating prior to the age of 19 (age 26 if enrolled as an adult child).

"TRS dependent beneficiary" does not include, as indicated under paragraph (2) of this subsection (w), a dependent of the survivor of a TRS benefit recipient who first becomes a dependent of a survivor of a TRS benefit recipient on or after the effective date of this amendatory Act of the 97th General Assembly unless that dependent would have been eligible for coverage as a dependent of the deceased TRS benefit recipient upon whom the survivor benefit is based.

(x) "Military leave" refers to individuals in basic training for reserves, special/advanced training, annual training, emergency call up, activation by the President of the United States, or any other training or duty in service to the United States Armed Forces.

(y) (Blank).

(z) "Community college benefit recipient" means a person who:

(1) is not a "member" as defined in this Section; and

(2) is receiving a monthly survivor's annuity or retirement annuity under Article 15 of the Illinois Pension Code; and

(3) either (i) was a full-time employee of a community college district or an association of community college boards created under the Public Community College Act (other than an employee whose last employer under Article 15 of the Illinois Pension Code was a community college district subject to Article VII of the Public Community College Act) and was eligible to participate in a group health benefit plan as an employee during the time of employment with a community college district (other than a community college district subject to Article VII of the

Public Community College Act) or an association of community college boards, or (ii) is the survivor of a person described in item (i).

(aa) "Community college dependent beneficiary" means a person who:

(1) is not a "member" or "dependent" as defined in this Section; and

(2) is a community college benefit recipient's: (A) spouse, (B) dependent parent who is receiving at least half of his or her support from the community college benefit recipient, or (C) natural, step, adjudicated, or adopted child who is (i) under age 26, or (ii) age 19 or over and mentally or physically disabled from a cause originating prior to the age of 19 (age 26 if enrolled as an adult child).

"Community college dependent beneficiary" does not include, as indicated under paragraph (2) of this subsection (aa), a dependent of the survivor of a community college benefit recipient who first becomes a dependent of a survivor of a community college benefit recipient on or after the effective date of this amendatory Act of the 97th General Assembly unless that dependent would have been eligible for coverage as a dependent of the deceased community college benefit recipient upon whom the survivor annuity is based.

(bb) "Qualified child advocacy center" means any Illinois child advocacy center and its administrative offices funded by the Department of Children and Family Services, as defined by the Children's Advocacy Center Act (55 ILCS 80/), approved by the Director and participating in a program created under subsection (n) of Section 10.

(cc) "New university benefit recipient" means a person who:

(1) is not a "member" as defined in this Section;

(2) is not a "community college benefit recipient" as defined in this Section;

(3) is receiving a monthly survivor's annuity or retirement annuity under Article 15 of the Illinois Pension Code; and

(4) was a full-time employee of an employer listed under Section 15-106 of the Illinois Pension Code.

(dd) "New university dependent beneficiary" means a person who:

(1) is not a "member" or "dependent" as defined in this Section;

(2) is not a "community college dependent beneficiary" as defined in this Section; and

(3) is a new university benefit recipient's: (A) spouse, (B) dependent parent who is receiving at least half of his or her support from the new university benefit recipient, or (C) natural, step, adjudicated, or adopted child who is (i) under age 26, or (ii) age 19 or over and mentally or physically disabled from a cause originating prior to the age of 19 (age 26 if enrolled as an adult

child).

(5 ILCS 375/6.6)

Sec. 6.6. Contributions to the Teacher Health Insurance Security Fund.

(a) Beginning July 1, 1995, all active contributors of the Teachers' Retirement System (established under Article 16 of the Illinois Pension Code) who are not employees of a department as defined in Section 3 of this Act shall make contributions toward the cost of annuitant and survivor health benefits. These contributions shall be at the following rates: until January 1, 2002, 0.5% of salary; beginning January 1, 2002, 0.65% of salary; beginning July 1, 2003, 0.75% of salary; beginning July 1, 2005, 0.80% of salary; beginning July 1, 2007, a percentage of salary to be determined by the Department of Central Management Services by rule, which in each fiscal year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year.

These contributions shall be deducted by the employer and paid to the System as service agent for the Department of Central Management Services. The System may use the same processes for collecting the contributions required by this subsection that it uses to collect contributions received from school districts and other covered employers under Sections

16-154 and 16-155 of the Illinois Pension Code.

An employer may agree to pick up or pay the contributions required under this subsection on behalf of the teacher; such contributions shall be deemed to have to have been paid by the teacher. Beginning January 1, 2002, if the employer does not directly pay the required member contribution, then the employer shall reduce the member's salary by an amount equal to the required contribution and shall then pay the contribution on behalf of the member. This reduction shall not change the amounts reported as creditable earnings to the Teachers' Retirement System.

A person who purchases optional service credit under Article 16 of the Illinois Pension Code for a period after June 30, 1995 must also make a contribution under this subsection for that optional credit, at the rate provided in subsection (a), based on the salary used in computing the optional service credit, plus interest on this employee contribution. This contribution shall be collected by the System as service agent for the Department of Central Management Services. The contribution required under this subsection for the optional service credit must be paid in full before any annuity based on that credit begins.

(a-5) Beginning January 1, 2002, every employer of a teacher (other than an employer that is a department as defined in Section 3 of this Act) shall pay an employer contribution toward the cost of annuitant and survivor health benefits.

These contributions shall be computed as follows:

(1) Beginning January 1, 2002 through June 30, 2003, the employer contribution shall be equal to 0.4% of each teacher's salary.

(2) Beginning July 1, 2003, the employer contribution shall be equal to 0.5% of each teacher's salary.

(3) Beginning July 1, 2005, the employer contribution shall be equal to 0.6% of each teacher's salary.

(4) Beginning July 1, 2007, the employer contribution shall be a percentage of each teacher's salary to be determined by the Department of Central Management Services by rule, which in each fiscal year shall not exceed 105% of the percentage of each teacher's salary actually required to be paid in the previous fiscal year.

These contributions shall be paid by the employer to the System as service agent for the Department of Central Management Services. The System may use the same processes for collecting the contributions required by this subsection that it uses to collect contributions received from school districts and other covered employers under the Illinois Pension Code.

The school district or other employing unit may pay these employer contributions out of any source of funding available for that purpose and shall forward the contributions to the System on the schedule established for the payment of member contributions.

(b) The Teachers' Retirement System shall promptly deposit all moneys collected under subsections (a) and (a-5) of this Section into the Teacher Health Insurance Security Fund created in Section 6.5 of this Act. The moneys collected under this Section shall be used only for the purposes authorized in Section 6.5 of this Act and shall not be considered to be assets of the Teachers' Retirement System. Contributions made under this Section are not transferable to other pension funds or retirement systems and are not refundable upon termination of service.

(c) On or before November 15 of each year, the Board of Trustees of the Teachers' Retirement System shall certify to the Governor, the Director of Central Management Services, and the State Comptroller its estimate of the total amount of contributions to be paid under subsection (a) of this Section 6.6 for the next fiscal year. The amount certified shall be decreased or increased each year by the amount that the actual active teacher contributions either fell short of or exceeded the estimate used by the Board in making the certification for the previous fiscal year. The certification shall include a detailed explanation of the methods and information that the Board relied upon in preparing its estimate. As soon as possible after the effective date of this amendatory Act of the 92nd General Assembly, the Board shall recalculate and recertify its certifications for fiscal years 2002 and 2003.

(d) Beginning in fiscal year 1996 and ending with the close of fiscal year 2013, on the first day of each month, or as soon thereafter as may be practical, the State Treasurer and the State Comptroller shall transfer from the General Revenue Fund to the Teacher Health Insurance Security Fund 1/12 of the annual amount appropriated for that fiscal year to the State Comptroller for deposit into the Teacher Health Insurance Security Fund under Section 1.3 of the State Pension Funds Continuing Appropriation Act.

(e) Except where otherwise specified in this Section, the definitions that apply to Article 16 of the Illinois Pension Code apply to this Section.

(f) (Blank).

(5 ILCS 375/6.10)

Sec. 6.10. Contributions to the Community College Health Insurance Security Fund.

(a) Beginning January 1, 1999, every active contributor of the State Universities Retirement System (established under Article 15 of the Illinois Pension Code) who (1) is a full-time employee of a community college district (other than a community college district subject to Article VII of the Public Community College Act) or an association of community college boards and (2) is not an employee as defined in Section 3 of this Act shall make contributions toward the cost of community college annuitant and survivor health benefits at the rate of 0.50% of salary.

These contributions shall be deducted by the employer and paid to the State Universities Retirement System as service agent for the Department of Central Management Services. The System may use the same processes for collecting the contributions required by this subsection that it uses to collect the contributions received from those employees under Section 15-157 of the Illinois Pension Code. An employer may agree to pick up or pay the contributions required under this subsection on behalf of the employee; such contributions shall be deemed to have been paid by the employee.

The State Universities Retirement System shall promptly deposit all moneys collected under this subsection (a) into the Community College Health Insurance Security Fund created in Section 6.9 of this Act. The moneys collected under this Section shall be used only for the purposes authorized in Section 6.9 of this Act and shall not be considered to be assets of the State Universities Retirement System. Contributions made under this Section are not transferable to other pension funds or retirement systems and are not refundable upon termination of service.

(b) Beginning January 1, 1999, every community college district (other than a community college district subject to Article VII of the Public Community College Act) or association of community college boards that is an employer under the State Universities Retirement System shall contribute toward the cost of the community college health benefits provided under

Section 6.9 of this Act an amount equal to 0.50% of the salary paid to its full-time employees who participate in the State Universities Retirement System and are not members as defined in Section 3 of this Act.

These contributions shall be paid by the employer to the State Universities Retirement System as service agent for the Department of Central Management Services. The System may use the same processes for collecting the contributions required by this subsection that it uses to collect the contributions received from those employers under Section 15-155 of the Illinois Pension Code.

The State Universities Retirement System shall promptly deposit all moneys collected under this subsection (b) into the Community College Health Insurance Security Fund created in Section 6.9 of this Act. The moneys collected under this Section shall be used only for the purposes authorized in Section 6.9 of this Act and shall not be considered to be assets of the State Universities Retirement System. Contributions made under this Section are not transferable to other pension funds or retirement systems and are not refundable upon termination of service.

The Department of Healthcare and Family Services, or any successor agency designated to procure healthcare contracts pursuant to this Act, is authorized to establish funds, separate accounts provided by any bank or banks as defined by the Illinois Banking Act, or separate accounts provided by any savings and loan association or associations as defined by the Illinois Savings and Loan Act of 1985 to be held by the Director, outside the State treasury, for the purpose of receiving the transfer of moneys from the Community College Health Insurance Security Fund. The Department may promulgate rules further defining the methodology for the transfers. Any interest earned by moneys in the funds or accounts shall inure to the Community College Health Insurance Security Fund. The transferred moneys, and interest accrued thereon, shall be used exclusively for transfers to administrative service organizations or their financial institutions for payments of claims to claimants and providers under the self-insurance health plan. The transferred moneys, and interest accrued thereon, shall not be used for any other purpose including, but not limited to, reimbursement of administration fees due the administrative service organization pursuant to its contract or contracts with the Department.

(c) On or before November 15 of each year, the Board of Trustees of the State Universities Retirement System shall certify to the Governor, the Director of Central Management Services, and the State Comptroller its estimate of the total amount of contributions to be paid under subsection (a) of this Section for the next fiscal year. Beginning in fiscal year 2008, the amount certified shall be decreased or increased each year by the amount that the actual active employee contributions either fell short of or exceeded the estimate used by the Board in making the certification for the previous fiscal year. The State Universities Retirement System shall calculate the amount of actual active employee contributions in fiscal years 1999 through 2005. Based upon this calculation, the fiscal year 2008 certification shall include an amount equal to the cumulative amount that the actual active employee contributions either fell short of or exceeded the estimate used by the Board in making the certification for those fiscal years. The certification shall include a detailed explanation of the methods and information that the Board relied upon in preparing its estimate. As soon as possible after the effective date of this Section, the Board shall submit its estimate for fiscal year 1999.

(d) Beginning in fiscal year 1999 and ending with the close of fiscal year 2013, on the first day of each month, or as soon thereafter as may be practical, the State Treasurer and the State Comptroller shall transfer from the General Revenue Fund to the Community College Health Insurance Security Fund 1/12 of the annual amount appropriated for that fiscal year to the State Comptroller for deposit into the Community College Health Insurance Security Fund under Section 1.4 of the State Pension Funds Continuing Appropriation Act.

(e) Except where otherwise specified in this Section, the definitions that apply to Article 15 of the Illinois Pension Code apply to this Section.

Sec. 6.10A. Health benefits for new university benefit recipients and new university dependent beneficiaries.

(a) Purpose. It is the purpose of this amendatory Act of 97th General Assembly to establish a uniform program of health benefits for new university benefit recipients and their dependent beneficiaries under the administration of the Department of Central Management Services.

(b) Creation of program. Beginning July 1, 2013, the Department of Central Management Services shall be responsible for administering a program of health benefits for new university benefit recipients and new university dependent beneficiaries under this Section. The State Universities Retirement System and the various employers shall cooperate with the Department in this endeavor.

(c) Eligibility. All new university benefit recipients and new university dependent beneficiaries shall be eligible to participate in the program established under this Section, without any interruption or delay in coverage or limitation as to pre-existing medical conditions. Eligibility to participate shall be determined by the State Universities Retirement System. Eligibility information shall be communicated to the Department of Central Management Services in a format acceptable to the Department.

(d) Coverage. The health benefit coverage provided under this Section shall be a program of health, dental, and vision benefits.

The program of health benefits under this Section may include any or all of the benefit limitations, including, but not limited to, a reduction in benefits based on eligibility for federal medicare benefits, that are provided under subsection (a) of Section 6 of this Act for other health benefit programs under this Act.

(e) Insurance rates and premiums. The Director shall determine the insurance rates and premiums for new university benefit recipients and new university dependent beneficiaries. Rates and premiums may be based in part on age and eligibility for federal Medicare coverage. The Director shall also determine premiums that will allow for the establishment of an actuarially sound reserve for this program.

The cost of health benefits under the program shall be paid as follows:

(1) For a new university benefit recipient, up to 75% of the total insurance rate shall be paid from the State Universities Health Insurance Security Fund.

(2) The balance of the rate of insurance, including the entire premium for any coverage for new university dependent beneficiaries that has been elected, shall be paid by deductions authorized by the new university benefit recipient to be withheld from his or her monthly annuity or benefit payment from the State Universities Retirement

System; except that (i) if the balance of the cost of coverage exceeds the amount of the monthly annuity or benefit payment, the difference shall be paid directly to the State Universities Retirement System by the new university benefit recipient, and (ii) all or part of the balance of the cost of coverage may, at the option of the employer, be paid to the State Universities Retirement System by the employer from which the new university benefit recipient retired. The State Universities Retirement System shall promptly deposit all moneys withheld by or paid to it under this subdivision (e)(2) into the State Universities Health Insurance Security Fund. These moneys shall not be considered assets of the State Universities Retirement System.

(f) Financing. All revenues arising from the administration of the health benefit program established under this Section shall be deposited into the State Universities Health Insurance Security Fund, which is hereby created as a nonappropriated trust fund to be held outside the State Treasury, with the State Treasurer as custodian. Any interest earned on moneys in the State Universities Health Insurance Security Fund shall be deposited into the Fund.

Moneys in the State Universities Health Insurance Security Fund shall be used only to pay the costs of the health benefit program established under this Section, including associated administrative costs and the establishment of a program reserve. Beginning January 1, 2013, the Department of Central Management Services may make expenditures from the State Universities Health Insurance Security Fund for those costs.

(g) Contract for benefits. The Director shall by contract, self-insurance, or otherwise make available the program of health benefits for new university benefit recipients and their new university dependent beneficiaries that is provided for in this Section. The contract or other arrangement for the provision of these health benefits shall be on terms deemed by the Director to be in the best interest of the State of Illinois and the new university benefit recipients based on, but not limited to, such criteria as administrative cost, service capabilities of the carrier or other contractor, and the costs of the benefits.

(h) Continuation of program. It is the intention of the General Assembly that the program of health benefits provided under this Section be maintained on an ongoing, affordable basis. The program of health benefits provided under this Section may be amended by the State and is not intended to be a pension or retirement benefit subject to protection under Article XIII, Section 5 of the Illinois Constitution.

(i) Other health benefit plans. A health benefit plan provided by an employer under the terms of a collective bargaining agreement in effect on or prior to the effective date of this amendatory Act of 97th General Assembly shall continue in force according to the terms of that agreement, unless otherwise mutually agreed by the parties to that agreement and the affected retiree. A new university benefit recipient or new university dependent beneficiary whose coverage under such a plan expires shall begin participating in the program established under this Section without any interruption or delay in coverage or limitation as to pre-existing medical conditions.

This Act does not prohibit any employer from offering additional health benefits for its retirees or their dependents or survivors.

(5 ILCS 375/6.10B new)

Sec. 6.10B. State Universities Health Insurance Security Fund.

(a) Beginning July 1, 2013, every active contributor of the State Universities Retirement System (established under Article 15 of the Illinois Pension Code) who (1) is employed on a full-time basis by an employer listed under Section 15-106, other than a community college district or an association of community college boards, and (2) is not an employee as defined in Section 3 of this Act shall make contributions toward the cost of new university benefit recipient and new university dependent beneficiary health benefits at the rate of 0.50% of salary.

These contributions shall be deducted by the employer and paid to the State Universities Retirement System as service agent for the Department of Central Management Services. The System may use the same processes for collecting the contributions required by this subsection that it uses to collect the contributions received under Section 15-157 of the Illinois Pension Code. An employer may agree to pick up or pay the contributions required under this subsection; such contributions shall be deemed to have been paid by the active contributor.

The State Universities Retirement System shall promptly deposit all moneys collected under this subsection (a) into the State Universities Health Insurance Security Fund created in Section 6.10A of this Act. The moneys collected under this Section shall be used only for the purposes authorized in Section 6.10A of this Act and shall not be considered to be assets of the State Universities Retirement System. Contributions made under this Section are not transferable to other pension funds or retirement systems and are not refundable upon termination of service.

(b) Beginning July 1, 2013, every employer listed in Section 15-106 of the Illinois Pension Code, other than a community college district or association of community college boards, shall contribute toward the cost of the new university benefit recipient and new university dependent beneficiary health benefits provided under Section 6.10A of this Act an amount equal to 0.50% of the salary paid to each active contributor who is subject to subsection (a).

These contributions shall be paid by the employer to the State Universities Retirement System as service agent for the Department of Central Management Services. The System may use the same processes for collecting the contributions required by this subsection that it uses to collect the contributions received from those employers under Section 15-155 of the Illinois Pension Code.

The State Universities Retirement System shall promptly deposit all moneys collected under this subsection (b) into the State Universities Health Insurance Security Fund created in Section 6.10A of this Act. The moneys collected under this Section shall be used only for the purposes authorized in Section 6.10A of this Act and shall not be considered to be assets of the State Universities Retirement System. Contributions made under this Section are not transferable to other pension funds or retirement systems and are not refundable upon termination of service.

The Department of Central Management Services, or any successor agency designated to procure healthcare contracts pursuant to this Act, is authorized to establish funds, separate accounts provided by any bank or banks as defined by the Illinois Banking Act, or separate accounts provided by any savings and loan association or associations as defined by the Illinois Savings and Loan Act of 1985 to be held by the Director, outside the State treasury, for the purpose of receiving the transfer of moneys from the State Universities

Health Insurance Security Fund. The Department may promulgate rules under the Illinois Administrative Procedure Act further defining the methodology for the transfers. Any interest earned by moneys in the funds or accounts shall inure to the State Universities Health Insurance Security Fund. The transferred moneys, and interest accrued thereon, shall be used exclusively for transfers to administrative service organizations or their financial institutions for payments of claims to claimants and providers under the self-insurance health plan. The transferred moneys, and interest accrued thereon, shall not be used for any other purpose including, but not limited to, reimbursement of administration fees due the administrative service organization pursuant to its contract or contracts with the Department.

(c) On or before November 15 of each year, the Board of Trustees of the State Universities Retirement System shall certify to the Governor, the Director of Central Management Services, and the State Comptroller its estimate of the total amount of contributions to be paid under subsection (a) of this Section for the next fiscal year. Beginning in fiscal year 2015, the amount certified shall be decreased or increased each year by the amount that the actual active employee contributions either fell short of or exceeded the estimate used by the Board in making the certification for the previous fiscal year.

(d) Except where otherwise specified in this Section, the definitions that apply to Article 15 of the Illinois Pension Code apply to this Section.

Section 10. The Illinois Pension Code is amended by changing Sections 2-105, 2-124, 14-103.06, 14-131, 15-134, 15-155, 16-107, 16-158, 18-110, and 18-131 and by adding Sections 1-167 and 1-168 as follows:

(40 ILCS 5/1-167 new)

Sec. 1-167. Tax-sheltered annuity for eligible employees and teachers.

(a) Each employer under Article 15 that employs one or more persons who are eligible to participate in a tax-sheltered annuity retirement plan under Section 403(b) of the Internal Revenue Code of 1986 shall establish one of those plans and offer to each of its eligible employees who first becomes an employee on or after the effective of this amendatory Act of the 97th General Assembly the ability to participate in that plan.

(b) Each employer under Article 16 that employs one or more persons who are eligible to participate in a tax-sheltered annuity retirement plan under Section 403(b) of the Internal Revenue Code of 1986 shall establish one of those plans and offer to each of its eligible teachers who first becomes a teacher on or after the effective of this amendatory Act of the 97th General Assembly the ability to participate in that plan.

(40 ILCS 5/1-168 new)

<u>Sec. 1-168. Mandatory benefit election. Notwithstanding any other provision of this Code, within 5 years after the effective date of this amendatory Act of the 97th General Assembly, each person who, on the effective date of this amendatory Act of the 97th General Assembly, is a member or participant of a retirement system established under Article 2, 14, 15, 16, or 18 of this Code shall elect either to participate in or opt out of participation in the retirement systems created under those Articles. A person who fails to make the required election within the time period specified shall be deemed to have opted out of participation in the pension funds and retirement systems established under this Code.</u>

(40 ILCS 5/2-105) (from Ch. 108 1/2, par. 2-105)

Sec. 2-105. Member. "Member": Members of the General Assembly of this State including persons who enter military service while a member of the General Assembly and any person serving as Governor, Lieutenant Governor, Secretary of State, Treasurer, Comptroller, or Attorney General for the period of service in such office.

Any person who has served for 10 or more years as Clerk or Assistant Clerk of the House of Representatives, Secretary or Assistant Secretary of the Senate, or any combination thereof, may elect to become a member of this system while thenceforth engaged in such service by filing a written election with the board. Any person so electing shall be deemed an active member of the General Assembly for the purpose of validating and transferring any service credits earned under any of the funds and systems established under Articles 3 through 18 of this Code.

Notwithstanding any other provision of this Code, on and after the effective date of this amendatory Act of the 97th General Assembly, a person may not become a member of the retirement system created under this Article.

(40 ILCS 5/2-124) (from Ch. 108 1/2, par. 2-124)

Sec. 2-124. Contributions by State.

(a) The State shall make contributions to the System by appropriations of amounts which, together with the contributions of participants, interest earned on investments, and other income will meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

(b) The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the prescribed rate of interest, using the formula in subsection (c).

(c) For State fiscal year 2014 and each fiscal year thereafter, the minimum contribution to the System to be made by the State for each fiscal year shall be 10.2% of the applicable employee payroll.

For State fiscal years 2012 and 2013 ~~through 2045~~, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $4,157,000.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $5,220,300.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is $10,454,000 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to Section 2-134 and shall be made from the proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

~~Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.~~

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 2-134, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(d) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(e) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the system's actuarially assumed rate of return.

Sec. 14-103.06. Member. "Member": Any employee included in the membership of the system; and any former employee who made contributions to the system and has not received a refund and who is not receiving a retirement annuity under this Article.

Notwithstanding any other provision of this Code, on and after the effective date of this amendatory Act of the 97th General Assembly, a person may not become a member of the retirement system created under this Article.

(Source: P.A. 80-841.)

(40 ILCS 5/14-131)

Sec. 14-131. Contributions by State.

(a) The State shall make contributions to the System by appropriations of amounts which, together with other employer contributions from trust, federal, and other funds, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

For the purposes of this Section and Section 14-135.08, references to State contributions refer only to employer contributions and do not include employee contributions that are picked up or otherwise paid by the State or a department on behalf of the employee.

(b) The Board shall determine the total amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board, using the formula in subsection (e).

The Board shall also determine a State contribution rate for each fiscal year, expressed as a percentage of payroll, based on the total required State contribution for that fiscal year (less the amount received by the System from appropriations under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act, if any, for the fiscal year ending on the June 30 immediately preceding the applicable November 15 certification deadline), the estimated payroll (including all forms of compensation) for personal services rendered by eligible employees, and the recommendations of the actuary.

For the purposes of this Section and Section 14.1 of the State Finance Act, the term "eligible employees" includes employees who participate in the System, persons who may elect to participate in the System but have not so elected, persons who are serving a qualifying period that is required for participation, and annuitants employed by a department as described in subdivision (a)(1) or (a)(2) of Section 14-111.

(c) Contributions shall be made by the several departments for each pay period by warrants drawn by the State Comptroller against their respective funds or appropriations based upon vouchers stating the amount to be so contributed. These amounts shall be based on the full rate certified by the Board under Section 14-135.08 for that fiscal year. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the several departments shall not make contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The several departments shall resume those contributions at the commencement of fiscal year 2005.

(c-1) Notwithstanding subsection (c) of this Section, for fiscal years 2010, 2012, and 2013 only, contributions by the several departments are not required to be made for General Revenue Funds payrolls processed by the Comptroller. Payrolls paid by the several departments from all other State funds must continue to be processed pursuant to subsection (c) of this Section.

(c-2) For State fiscal years 2010, 2012, and 2013 only, on or as soon as possible after the 15th day of each month, the

Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the fiscal year General Revenue Fund contribution as certified by the System pursuant to Section 14-135.08 of the Illinois Pension Code.

(d) If an employee is paid from trust funds or federal funds, the department or other employer shall pay employer contributions from those funds to the System at the certified rate, unless the terms of the trust or the federal-State agreement preclude the use of the funds for that purpose, in which case the required employer contributions shall be paid by the State. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the department or other employer shall not pay contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The department or other employer shall resume payment of contributions at the commencement of fiscal year 2005.

(e) For State fiscal year 2014 and each fiscal year thereafter, the minimum contribution to the System to be made by the State for each fiscal year shall be 10.2% of the applicable employee payroll.

For State fiscal years 2012 and 2013 ~~through 2045~~, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that (i) for State fiscal year 1998, for all purposes of this Code and any other law of this State, the certified percentage of the applicable employee payroll shall be 5.052% for employees earning eligible creditable service under Section 14-110 and 6.500% for all other employees, notwithstanding any contrary certification made under Section 14-135.08 before the effective date of this amendatory Act of 1997, and (ii) in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a): 9.8% in FY 1999; 10.0% in FY 2000; 10.2% in FY 2001; 10.4% in FY 2002; 10.6% in FY 2003; and 10.8% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2006 is $203,783,900.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2007 is $344,164,400.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State General Revenue Fund contribution for State fiscal year 2010 is $723,703,100 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State General Revenue Fund contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to Section 14-135.08 and shall be made from the proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

~~Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.~~

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 14-135.08, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(f) After the submission of all payments for eligible employees from personal services line items in fiscal year 2004 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2004 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 93rd General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2004 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2004 through payments under this Section and under Section 6z-61 of the State Finance Act. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2004 Shortfall" for purposes of this Section, and the Fiscal Year 2004 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2004 Overpayment" for purposes of this Section, and the Fiscal Year 2004 Overpayment shall be repaid by the System to the Pension Contribution Fund as soon as practicable after the certification.

(g) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(h) For purposes of determining the required State contribution to the System for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the System's actuarially assumed rate of return.

(i) After the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in fiscal year 2010 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2010 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 96th General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2010 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2010 through payments under this Section. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2010 Shortfall" for purposes of this Section, and the Fiscal Year 2010 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2010 Overpayment" for purposes of this Section, and the Fiscal Year 2010 Overpayment shall be repaid by the System to the General Revenue Fund as soon as practicable after the certification.

(j) After the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in fiscal year 2011 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2011 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 96th General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2011 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2011 through payments under this Section. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2011 Shortfall" for purposes of this Section, and the Fiscal Year 2011 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2011

Overpayment" for purposes of this Section, and the Fiscal Year 2011 Overpayment shall be repaid by the System to the General Revenue Fund as soon as practicable after the certification.

(k) For fiscal years 2012 and 2013 only, after the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in the fiscal year have been made, the Comptroller shall provide to the System a certification of the sum of all expenditures in the fiscal year for personal services. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for the fiscal year in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System for the fiscal year. If the amount due is more than the amount received, the difference shall be termed the "Prior Fiscal Year Shortfall" for purposes of this Section, and the Prior Fiscal Year Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Prior Fiscal Year Overpayment" for purposes of this Section, and the Prior Fiscal Year Overpayment shall be repaid by the System to the General Revenue Fund as soon as practicable after the certification.

Sec. 15-134. Participant.

(a) Each person shall, as a condition of employment, become a participant and be subject to this Article on the date that he or she becomes an employee, makes an election to participate in, or otherwise becomes a participant in one of the retirement programs offered under this Article, whichever date is later.

An employee who becomes a participant shall continue to be a participant until he or she becomes an annuitant, dies or accepts a refund of contributions. For purposes of subsection (f) of Section 1-160, the term "participant" shall include a person receiving a retirement annuity.

(b) A person employed concurrently by 2 or more employers is eligible to participate in the system on compensation received from all employers.

<u>(c) Notwithstanding any other provision of this Code, on and after the effective date of this amendatory Act of the 97th General Assembly, a person may not become a participant of the retirement system created under this Article.</u>

(40 ILCS 5/15-155) (from Ch. 108 1/2, par. 15-155)

Sec. 15-155. Employer contributions.

(a) The State of Illinois shall make contributions by appropriations of amounts which, together with the other employer contributions from trust, federal, and other funds, employee contributions, income from investments, and other income of this System, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (a-1).

(a-1) For State fiscal year 2014 and each fiscal year thereafter, the total annual contribution shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required total annual contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

In State fiscal year 2014, employers shall contribute 50% of the total annual contribution for that year, and the State shall contribute 50% of the total annual contribution for that year. In State fiscal year 2015 and each fiscal year thereafter, employers shall contribute the total annual contribution or 101% of the previous year's employer contribution, whichever is less, and the State shall contribute the difference between the total annual contribution for that year and the required employer contribution for that year.

For State fiscal years 2012 and 2013 ~~through 2045~~, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $166,641,900.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $252,064,100.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is $702,514,000 and shall be made from the State Pensions Fund and proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2010, (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to Section 15-165 and shall be made from the State Pensions Fund and proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

~~Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.~~

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 15-165, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(b) If an employee is paid from trust or federal funds, the employer shall pay to the Board contributions from those funds which are sufficient to cover the accruing normal costs on behalf of the employee. However, universities having employees who are compensated out of local auxiliary funds, income funds, or service enterprise funds are not required to pay such contributions on behalf of those employees. The local auxiliary funds, income funds, and service enterprise funds of universities shall not be considered trust funds for the purpose of this Article, but funds of alumni associations, foundations, and athletic associations which are affiliated with the universities included as employers under this Article and other employers which do not receive State appropriations are considered to be trust funds for the purpose of this Article.

(b-1) The City of Urbana and the City of Champaign shall each make employer contributions to this System for their respective firefighter employees who participate in this System pursuant to subsection (h) of Section 15-107. The rate of contributions to be made by those municipalities shall be determined annually by the Board on the basis of the actuarial assumptions adopted by the Board and the recommendations of the actuary, and shall be expressed as a percentage of salary for each such employee. The Board shall certify the rate to the affected municipalities as soon as may be practical. The employer contributions required under this subsection shall be remitted by the municipality to the System at the same time and in the same manner as employee contributions.

(c) Through State fiscal year 1995: The total employer contribution shall be apportioned among the various funds of the State and other employers, whether trust, federal, or other funds, in accordance with actuarial procedures approved by the Board. State of Illinois contributions for employers receiving State appropriations for personal services shall be payable from appropriations made to the employers or to the System. The contributions for Class I community colleges covering earnings other than those paid from trust and federal funds, shall be payable solely from appropriations to the Illinois Community College Board or the System for employer contributions.

(d) Beginning in State fiscal year 1996, the required State contributions to the System shall be appropriated directly to the System and shall be payable through vouchers issued in accordance with subsection (c) of Section 15-165, except as provided in subsection (g).

(e) The State Comptroller shall draw warrants payable to the System upon proper certification by the System or by the employer in accordance with the appropriation laws and this Code.

(f) Normal costs under this Section means liability for pensions and other benefits which accrues to the System because of the credits earned for service rendered by the participants during the fiscal year and expenses of administering the System, but shall not include the principal of or any redemption premium or interest on any bonds issued by the Board or any expenses incurred or deposits required in connection therewith.

(g) If the amount of a participant's earnings for any academic year used to determine the final rate of earnings, determined on a full-time equivalent basis, exceeds the amount of his or her earnings with the same employer for the previous academic year, determined on a full-time equivalent basis, by more than 6%, the participant's employer shall pay to the

System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in earnings that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. The System may require the employer to provide any pertinent information or documentation.

Whenever it determines that a payment is or may be required under this subsection (g), the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (h) or (i) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of subsection (h) or (i). Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection

(g) ~~(f)~~ may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

(h) This subsection (h) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by Public Act 94-1057 shall not require the System to refund any payments received before July 31, 2006 (the effective date of Public Act 94-1057).

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases paid to participants under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005.

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases paid to a participant at a time when the participant is 10 or more years from retirement eligibility under Section 15-135.

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases resulting from overload work, including a contract for summer teaching, or overtime when the employer has certified to the System, and the

System has approved the certification, that: (i) in the case of overloads (A) the overload work is for the sole purpose of academic instruction in excess of the standard number of instruction hours for a full-time employee occurring during the academic year that the overload is paid and (B) the earnings increases are equal to or less than the rate of pay for academic instruction computed using the participant's current salary rate and work schedule; and (ii) in the case of overtime, the overtime was necessary for the educational mission.

When assessing payment for any amount due under subsection (g), the System shall exclude any earnings increase resulting from (i) a promotion for which the employee moves from one classification to a higher classification under the State Universities Civil Service System, (ii) a promotion in academic rank for a tenured or tenure-track faculty position, or (iii) a promotion that the Illinois Community College Board has recommended in accordance with subsection (k) of this Section. These earnings increases shall be excluded only if the promotion is to a position that has existed and been filled by a member for no less than one complete academic year and the earnings increase as a result of the promotion is an increase that results in an amount no greater than the average salary paid for other similar positions.

(i) When assessing payment for any amount due under subsection (g), the System shall exclude any salary increase described in subsection (h) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (g) of this Section.

(j) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

(1) The number of recalculations required by the changes made to this Section by Public Act 94-1057 for each employer.

(2) The dollar amount by which each employer's contribution to the System was changed due to recalculations required by Public Act 94-1057.

(3) The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.

(4) The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057.

(k) The Illinois Community College Board shall adopt rules for recommending lists of promotional positions submitted to the Board by community colleges and for reviewing the promotional lists on an annual basis. When recommending promotional lists, the Board shall consider the similarity of the positions submitted to those positions recognized for State universities by the State Universities Civil Service System. The Illinois Community College Board shall file a copy of its findings with the System. The System shall consider the findings of the Illinois Community College Board when making determinations under this Section. The System shall not exclude any earnings increases resulting from a promotion when the promotion was not submitted by a community college. Nothing in this subsection (k) shall require any community college to submit any information to the Community College Board.

(l) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(m) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal

to the system's actuarially assumed rate of return.

(40 ILCS 5/16-158) (from Ch. 108 1/2, par. 16-158)

Sec. 16-158. Contributions by State and other employing units.

(a) The State shall make contributions to the System by means of appropriations from the Common School Fund and other State funds of amounts which, together with other employer contributions, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (b-3).

(a-1) Annually, on or before November 15 until November 15, 2011, the Board shall certify to the Governor the amount of the required State contribution for the coming fiscal year. The certification under this subsection (a-1) shall include a copy of the actuarial recommendations upon which it is based and shall specifically identify the System's projected State normal cost for that fiscal year.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in required State contributions made by this amendatory Act of the 94th General Assembly.

On or before April 1, 2011, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2011, applying the changes made by Public Act 96-889 to the System's assets and liabilities as of June 30, 2009 as though Public Act 96-889 was approved on that date.

(a-5) On or before November 1 of each year, beginning November 1, 2012, the Board shall submit to the State Actuary, the Governor, and the General Assembly a proposed certification of the amount of the required State contribution to the System for the next fiscal year, along with all of the actuarial assumptions, calculations, and data upon which that proposed certification is based. On or before January 1 of each year, beginning January 1, 2013, the State Actuary shall issue a preliminary report concerning the proposed certification and identifying, if necessary, recommended changes in actuarial assumptions that the Board must consider before finalizing its certification of the required State contributions. On or before January 15, 2013 and each January 15 thereafter, the Board shall certify to the Governor and the General Assembly the amount of the required State contribution for the next fiscal year. The Board's certification must note any deviations from the State Actuary's recommended changes, the reason or reasons for not following the State Actuary's recommended changes, and the fiscal impact of not following the State Actuary's recommended changes on the required State contribution.

(b) Through State fiscal year 1995, the State contributions shall be paid to the System in accordance with Section 18-7 of the School Code.

(b-1) Beginning in State fiscal year 1996, on the 15th day of each month, or as soon thereafter as may be practicable, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a-1). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (a) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this subsection, the difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(b-2) Allocations from the Common School Fund apportioned to school districts not coming under this System shall not be diminished or affected by the provisions of this Article.

(b-3) For State fiscal year 2014 and each fiscal year thereafter, the total annual contribution shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required total annual contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

In State fiscal year 2014, employers shall contribute 50% of the total annual contribution for that year, and the State shall contribute 50% of the total annual contribution for that year. In State fiscal year 2015 and each fiscal year thereafter, employers shall contribute the total annual contribution or 101% of the previous year's employer contribution, whichever is less, and the State shall contribute the difference between the total annual contribution for that year and the required employer contribution for that year.

For State fiscal years 2012 and 2013 ~~through 2045~~, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a), and notwithstanding any contrary certification made under subsection (a-1) before the effective date of this amendatory Act of 1998: 10.02% in FY 1999; 10.77% in FY 2000; 11.47% in FY 2001; 12.16% in FY 2002; 12.86% in FY 2003; and 13.56% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $534,627,700.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $738,014,500.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is $2,089,268,000 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the Common School Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to subsection (a-1) of this Section and shall be made from the proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the Common School Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable. This amount shall include, in addition to the amount certified by the System, an amount necessary to meet employer contributions required by the State as an employer under paragraph (e) of this Section, which may also be used by the System for contributions required by paragraph (a) of Section 16-127.

~~Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.~~

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under subsection (a-1), shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General

Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(c) Payment of the required State contributions and of all pensions, retirement annuities, death benefits, refunds, and other benefits granted under or assumed by this System, and all expenses in connection with the administration and operation thereof, are obligations of the State.

If members are paid from special trust or federal funds which are administered by the employing unit, whether school district or other unit, the employing unit shall pay to the System from such funds the full accruing retirement costs based upon that service, as determined by the System. Employer contributions, based on salary paid to members from federal funds, may be forwarded by the distributing agency of the State of Illinois to the System prior to allocation, in an amount determined in accordance with guidelines established by such agency and the System.

(d) Effective July 1, 1986, any employer of a teacher as defined in paragraph (8) of Section 16-106 shall pay the employer's normal cost of benefits based upon the teacher's service, in addition to employee contributions, as determined by the System. Such employer contributions shall be forwarded monthly in accordance with guidelines established by the System.

However, with respect to benefits granted under Section 16-133.4 or 16-133.5 to a teacher as defined in paragraph (8) of Section 16-106, the employer's contribution shall be 12% (rather than 20%) of the member's highest annual salary rate for each year of creditable service granted, and the employer shall also pay the required employee contribution on behalf of the teacher. For the purposes of Sections 16-133.4 and 16-133.5, a teacher as defined in paragraph (8) of Section 16-106 who is serving in that capacity while on leave of absence from another employer under this Article shall not be considered an employee of the employer from which the teacher is on leave.

(e) Beginning July 1, 1998, every employer of a teacher shall pay to the System an employer contribution computed as follows:

(1) Beginning July 1, 1998 through June 30, 1999, the employer contribution shall be equal to 0.3% of each teacher's salary.

(2) Beginning July 1, 1999 and thereafter, the employer contribution shall be equal to 0.58% of each teacher's salary.

The school district or other employing unit may pay these employer contributions out of any source of funding available for that purpose and shall forward the contributions to the System on the schedule established for the payment of member contributions.

These employer contributions are intended to offset a portion of the cost to the System of the increases in retirement benefits resulting from this amendatory Act of 1998.

Each employer of teachers is entitled to a credit against the contributions required under this subsection (e) with respect to salaries paid to teachers for the period January 1, 2002 through June 30, 2003, equal to the amount paid by that employer under subsection (a-5) of Section 6.6 of the State Employees Group Insurance Act of 1971 with respect to salaries paid to teachers for that period.

The additional 1% employee contribution required under Section 16-152 by this amendatory Act of 1998 is the responsibility of the teacher and not the teacher's employer, unless the employer agrees, through collective bargaining or otherwise, to make the contribution on behalf of the teacher.

If an employer is required by a contract in effect on May 1, 1998 between the employer and an employee organization to pay, on behalf of all its full-time employees covered by this Article, all mandatory employee contributions required under this Article, then the employer shall be excused from paying the employer contribution required under this subsection (e) for the balance of the term of that contract. The employer and the employee organization shall jointly certify to the System the existence of the contractual requirement, in such form as the System may prescribe. This exclusion shall cease upon the termination, extension, or renewal of the contract at any time after May 1, 1998.

(f) If the amount of a teacher's salary for any school year used to determine final average salary exceeds the member's annual full-time salary rate with the same employer for the previous school year by more than 6%, the teacher's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in salary that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. If a teacher's salary for the 2005-2006 school year is used to determine final average salary under this subsection (f), then the changes made to this subsection (f) by Public Act 94-1057 shall apply in calculating whether the increase in his or her salary is in excess of 6%. For the purposes of this Section, change in employment under Section 10-21.12 of the School Code on or after June 1, 2005 shall constitute a change in employer. The System may require the employer to provide any pertinent information or documentation. The changes made to this subsection (f) by this amendatory Act of the 94th General Assembly apply without regard to whether the teacher was in service on or after its effective date.

Whenever it determines that a payment is or may be required under this subsection, the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (g) or (h) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of that subsection. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (f) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

(g) This subsection (g) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by Public Act 94-1057 shall not require the System to refund any payments received before July 31, 2006 (the effective date of Public Act 94-1057).

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to teachers under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to a teacher at a time when the teacher is 10 or more years from retirement eligibility under Section 16-132 or 16-133.2.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases resulting from overload work, including summer school, when the school district has certified to the System, and the System has approved the certification, that (i) the overload work is for the sole purpose of classroom instruction in excess of the standard number of classes for a full-time teacher in a school district during a school year and (ii) the salary increases are equal to or less than the rate of pay for classroom instruction computed on the teacher's current salary and work schedule.

When assessing payment for any amount due under subsection (f), the System shall exclude a salary increase resulting from a promotion (i) for which the employee is required to hold a certificate or supervisory endorsement issued by the State Teacher Certification Board that is a different certification or supervisory endorsement than is required for the teacher's previous position and (ii) to a position that has existed and been filled by a member for no less than one complete academic year and the salary increase from the promotion is an increase that results in an amount no greater than the lesser of the average salary paid for other similar positions in the district requiring the same certification or the amount stipulated in the collective bargaining agreement for a similar position requiring the same certification.

When assessing payment for any amount due under subsection (f), the System shall exclude any payment to the teacher from the State of Illinois or the State Board of Education over which the employer does not have discretion, notwithstanding that the payment is included in the computation of final average salary.

(h) When assessing payment for any amount due under subsection (f), the System shall exclude any salary increase described in subsection (g) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (f) of this Section.

(i) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

(1) The number of recalculations required by the changes made to this Section by Public Act 94-1057 for each employer.

(2) The dollar amount by which each employer's contribution to the System was changed due to recalculations required by Public Act 94-1057.

(3) The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.

(4) The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057.

(j) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(k) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the system's actuarially assumed rate of return.

Sec. 18-131. Financing; employer contributions.

(a) The State of Illinois shall make contributions to this System by appropriations of the amounts which, together with the contributions of participants, net earnings on investments, and other income, will meet the costs of maintaining and administering this System on a 90% funded basis in accordance with actuarial recommendations.

(b) The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the prescribed rate of interest, using the formula in subsection (c).

(c) For State fiscal year 2014 and each fiscal year thereafter, the minimum contribution to the System to be made by the State for each fiscal year shall be 10.2% of the applicable employee payroll.

For State fiscal years 2012 and 2013 ~~through 2045~~, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $29,189,400.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $35,236,800.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is $78,832,000 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to Section 18-140 and shall be made from the proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

~~Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.~~

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 18-140, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(d) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(e) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the system's actuarially assumed rate of return.

Section 15. The State Pension Funds Continuing Appropriation Act is amended by changing Sections 1.3 and 1.4

as follows:

(40 ILCS 15/1.3)

Sec. 1.3. Appropriations for the Teacher Health Insurance Security Fund. Beginning in State fiscal year 1996 <u>and ending with the close of State fiscal year 2013</u>, there is hereby appropriated, on a continuing annual basis, from the General Revenue Fund to the State Comptroller for deposit into the Teacher Health Insurance Security Fund, an amount equal to the amount certified by the Board of Trustees of the Teachers' Retirement System of Illinois under subsection (c) of Section 6.6 of the State Employees Group Insurance Act of 1971 as the estimated total amount of contributions to be paid under subsection (a) of that Section 6.6 in that fiscal year.

In addition to any other amounts that may be appropriated for this purpose, in State fiscal years 2005 through 2007, there is hereby appropriated, on a continuing annual basis, from the General Revenue Fund to the State Comptroller for deposit into the Teacher Health Insurance Security Fund, an amount equal to $13,000,000 in each fiscal year.

The moneys appropriated under this Section 1.3 shall be deposited into the Teacher Health Insurance Security Fund and used only for the purposes authorized in Section 6.5 of the State Employees Group Insurance Act of 1971.
