

1 AN ACT concerning State government.

2 **Be it enacted by the People of the State of Illinois,**
3 **represented in the General Assembly:**

4 Section 5. The State Budget Law of the Civil Administrative
5 Code of Illinois is amended by changing Section 50-5 as
6 follows:

7 (15 ILCS 20/50-5)

8 Sec. 50-5. Governor to submit State budget.

9 (a) The Governor shall, as soon as possible and not later
10 than the second Wednesday in March in 2010 (March 10, 2010),
11 ~~and the third Wednesday in February of each year beginning in~~
12 2011, the fourth Wednesday in February in 2012 (February 22,
13 2012), and the third Wednesday in February of each year
14 thereafter, except as otherwise provided in this Section,
15 submit a State budget, embracing therein the amounts
16 recommended by the Governor to be appropriated to the
17 respective departments, offices, and institutions, and for all
18 other public purposes, the estimated revenues from taxation,
19 and the estimated revenues from sources other than taxation.
20 Except with respect to the capital development provisions of
21 the State budget, beginning with the revenue estimates prepared
22 for fiscal year 2012, revenue estimates shall be based solely
23 on: (i) revenue sources (including non-income resources),

1 rates, and levels that exist as of the date of the submission
2 of the State budget for the fiscal year and (ii) revenue
3 sources (including non-income resources), rates, and levels
4 that have been passed by the General Assembly as of the date of
5 the submission of the State budget for the fiscal year and that
6 are authorized to take effect in that fiscal year. Except with
7 respect to the capital development provisions of the State
8 budget, the Governor shall determine available revenue, deduct
9 the cost of essential government services, including, but not
10 limited to, pension payments and debt service, and assign a
11 percentage of the remaining revenue to each statewide
12 prioritized goal, as established in Section 50-25 of this Law,
13 taking into consideration the proposed goals set forth in the
14 report of the Commission established under that Section. The
15 Governor shall also demonstrate how spending priorities for the
16 fiscal year fulfill those statewide goals. The amounts
17 recommended by the Governor for appropriation to the respective
18 departments, offices and institutions shall be formulated
19 according to each department's, office's, and institution's
20 ability to effectively deliver services that meet the
21 established statewide goals. The amounts relating to
22 particular functions and activities shall be further
23 formulated in accordance with the object classification
24 specified in Section 13 of the State Finance Act. In addition,
25 the amounts recommended by the Governor for appropriation shall
26 take into account each State agency's effectiveness in

1 achieving its prioritized goals for the previous fiscal year,
2 as set forth in Section 50-25 of this Law, giving priority to
3 agencies and programs that have demonstrated a focus on the
4 prevention of waste and the maximum yield from resources.

5 Beginning in fiscal year 2011, the Governor shall
6 distribute written quarterly financial reports on operating
7 funds, which may include general, State, or federal funds and
8 may include funds related to agencies that have significant
9 impacts on State operations, and budget statements on all
10 appropriated funds to the General Assembly and the State
11 Comptroller. The reports shall be submitted no later than 45
12 days after the last day of each quarter of the fiscal year and
13 shall be posted on the Governor's Office of Management and
14 Budget's website on the same day. The reports shall be prepared
15 and presented for each State agency and on a statewide level in
16 an executive summary format that may include, for the fiscal
17 year to date, individual itemizations for each significant
18 revenue type as well as itemizations of expenditures and
19 obligations, by agency, with an appropriate level of detail.
20 The reports shall include a calculation of the actual total
21 budget surplus or deficit for the fiscal year to date. The
22 Governor shall also present periodic budget addresses
23 throughout the fiscal year at the invitation of the General
24 Assembly.

25 The Governor shall not propose expenditures and the General
26 Assembly shall not enact appropriations that exceed the

1 resources estimated to be available, as provided in this
2 Section. Appropriations may be adjusted during the fiscal year
3 by means of one or more supplemental appropriation bills if any
4 State agency either fails to meet or exceeds the goals set
5 forth in Section 50-25 of this Law.

6 For the purposes of Article VIII, Section 2 of the 1970
7 Illinois Constitution, the State budget for the following funds
8 shall be prepared on the basis of revenue and expenditure
9 measurement concepts that are in concert with generally
10 accepted accounting principles for governments:

- 11 (1) General Revenue Fund.
- 12 (2) Common School Fund.
- 13 (3) Educational Assistance Fund.
- 14 (4) Road Fund.
- 15 (5) Motor Fuel Tax Fund.
- 16 (6) Agricultural Premium Fund.

17 These funds shall be known as the "budgeted funds". The
18 revenue estimates used in the State budget for the budgeted
19 funds shall include the estimated beginning fund balance, plus
20 revenues estimated to be received during the budgeted year,
21 plus the estimated receipts due the State as of June 30 of the
22 budgeted year that are expected to be collected during the
23 lapse period following the budgeted year, minus the receipts
24 collected during the first 2 months of the budgeted year that
25 became due to the State in the year before the budgeted year.
26 Revenues shall also include estimated federal reimbursements

1 associated with the recognition of Section 25 of the State
2 Finance Act liabilities. For any budgeted fund for which
3 current year revenues are anticipated to exceed expenditures,
4 the surplus shall be considered to be a resource available for
5 expenditure in the budgeted fiscal year.

6 Expenditure estimates for the budgeted funds included in
7 the State budget shall include the costs to be incurred by the
8 State for the budgeted year, to be paid in the next fiscal
9 year, excluding costs paid in the budgeted year which were
10 carried over from the prior year, where the payment is
11 authorized by Section 25 of the State Finance Act. For any
12 budgeted fund for which expenditures are expected to exceed
13 revenues in the current fiscal year, the deficit shall be
14 considered as a use of funds in the budgeted fiscal year.

15 Revenues and expenditures shall also include transfers
16 between funds that are based on revenues received or costs
17 incurred during the budget year.

18 Appropriations for expenditures shall also include all
19 anticipated statutory continuing appropriation obligations
20 that are expected to be incurred during the budgeted fiscal
21 year.

22 By March 15 of each year, the Commission on Government
23 Forecasting and Accountability shall prepare revenue and fund
24 transfer estimates in accordance with the requirements of this
25 Section and report those estimates to the General Assembly and
26 the Governor.

1 For all funds other than the budgeted funds, the proposed
2 expenditures shall not exceed funds estimated to be available
3 for the fiscal year as shown in the budget. Appropriation for a
4 fiscal year shall not exceed funds estimated by the General
5 Assembly to be available during that year.

6 (b) By February 24, 2010, the Governor must file a written
7 report with the Secretary of the Senate and the Clerk of the
8 House of Representatives containing the following:

9 (1) for fiscal year 2010, the revenues for all budgeted
10 funds, both actual to date and estimated for the full
11 fiscal year;

12 (2) for fiscal year 2010, the expenditures for all
13 budgeted funds, both actual to date and estimated for the
14 full fiscal year;

15 (3) for fiscal year 2011, the estimated revenues for
16 all budgeted funds, including without limitation the
17 affordable General Revenue Fund appropriations, for the
18 full fiscal year; and

19 (4) for fiscal year 2011, an estimate of the
20 anticipated liabilities for all budgeted funds, including
21 without limitation the affordable General Revenue Fund
22 appropriations, debt service on bonds issued, and the
23 State's contributions to the pension systems, for the full
24 fiscal year.

25 Between July 1 and August 31 of each fiscal year, the
26 members of the General Assembly and members of the public may

1 make written budget recommendations to the Governor.

2 Beginning with budgets prepared for fiscal year 2013, the
3 budgets submitted by the Governor and appropriations made by
4 the General Assembly for all executive branch State agencies
5 must adhere to a method of budgeting where each priority must
6 be justified each year according to merit rather than according
7 to the amount appropriated for the preceding year.
