

1 AN ACT concerning public health.

2 **Be it enacted by the People of the State of Illinois,**
3 **represented in the General Assembly:**

4 Section 5. The Newborn Metabolic Screening Act is amended
5 by changing Section 2 as follows:

6 (410 ILCS 240/2) (from Ch. 111 1/2, par. 4904)

7 Sec. 2. The Department of Public Health shall administer
8 the provisions of this Act and shall:

9 (a) Institute and carry on an intensive educational program
10 among physicians, hospitals, public health nurses and the
11 public concerning the diseases phenylketonuria,
12 hypothyroidism, galactosemia and other metabolic diseases.
13 This educational program shall include information about the
14 nature of the diseases and examinations for the detection of
15 the diseases in early infancy in order that measures may be
16 taken to prevent the mental retardation resulting from the
17 diseases.

18 (a-5) Beginning July 1, 2002, provide all newborns with
19 expanded screening tests for the presence of genetic,
20 endocrine, or other metabolic disorders, including
21 phenylketonuria, galactosemia, hypothyroidism, congenital
22 adrenal hyperplasia, biotinidase deficiency, and sickling
23 disorders, as well as other amino acid disorders, organic acid

1 disorders, fatty acid oxidation disorders, and other
2 abnormalities detectable through the use of a tandem mass
3 spectrometer. If by July 1, 2002, the Department is unable to
4 provide expanded screening using the State Laboratory, it shall
5 temporarily provide such screening through an accredited
6 laboratory selected by the Department until the Department has
7 the capacity to provide screening through the State Laboratory.
8 If expanded screening is provided on a temporary basis through
9 an accredited laboratory, the Department shall substitute the
10 fee charged by the accredited laboratory, plus a 5% surcharge
11 for documentation and handling, for the fee authorized in
12 subsection (e) of this Section.

13 (a-6) In accordance with the timetable specified in this
14 subsection, provide all newborns with expanded screening tests
15 for the presence of certain Lysosomal Storage Disorders known
16 as Krabbe, Pompe, Gaucher, Fabry, and Niemann-Pick. The testing
17 shall begin within 6 months following the occurrence of all of
18 the following:

19 (i) the establishment and verification of relevant and
20 appropriate performance specifications as defined under
21 the federal Clinical Laboratory Improvement Amendments and
22 regulations thereunder for Federal Drug
23 Administration-cleared or in-house developed methods,
24 performed under an institutional review board approved
25 protocol, if required ~~the registration with the federal~~
26 ~~Food and Drug Administration of the necessary reagents;~~

1 ~~(ii) the availability of the necessary reagents from~~
2 ~~the Centers for Disease Control and Prevention;~~

3 (ii) ~~(iii)~~ the availability of quality assurance
4 testing methodology for these processes; ~~and~~

5 (iii) ~~(iv)~~ the acquisition and installment by the
6 Department of the equipment necessary to implement the
7 expanded screening tests;~~;~~

8 (iv) establishment of precise threshold values
9 ensuring defined disorder identification for each
10 screening test;

11 (v) authentication of pilot testing achieving each
12 milestone described in items (i) through (iv) of this
13 subsection (a-6) for each disorder screening test; and

14 (vi) authentication achieving potentiality of high
15 throughput standards for statewide volume of each disorder
16 screening test concomitant with each milestone described
17 in items (i) through (iv) of this subsection (a-6).

18 It is the goal of this amendatory Act of the 97th ~~95th~~
19 General Assembly that the expanded screening for the specified
20 Lysosomal Storage Disorders begins within 2 ~~3~~ years after the
21 effective date of this amendatory Act of the 97th General
22 Assembly. The Department is authorized to implement an
23 additional fee for the screening prior to beginning the testing
24 in order to accumulate the resources for start-up and other
25 costs associated with implementation of the screening and
26 thereafter to support the costs associated with screening and

1 follow-up programs for the specified Lysosomal Storage
2 Disorders.

3 (a-7) In accordance with the timetable specified in this
4 subsection (a-7), provide all newborns with expanded screening
5 tests for the presence of Severe Combined Immunodeficiency
6 Disease (SCID). The testing shall begin within 12 months
7 following the occurrence of all of the following:

8 (i) the establishment and verification of relevant and
9 appropriate performance specifications as defined under
10 the federal Clinical Laboratory Improvement Amendments and
11 regulations thereunder for Federal Drug
12 Administration-cleared or in-house developed methods,
13 performed under an institutional review board approved
14 protocol, if required;

15 (ii) the availability of quality assurance testing and
16 comparative threshold values for SCID;

17 (iii) the acquisition and installment by the
18 Department of the equipment necessary to implement the
19 initial pilot and expanded statewide volume of screening
20 tests for SCID;

21 (iv) establishment of precise threshold values
22 ensuring defined disorder identification for SCID;

23 (v) authentication of pilot testing achieving each
24 milestone described in items (i) through (iv) of this
25 subsection (a-7) for SCID; and

26 (vi) authentication achieving potentiality of high

1 throughput standards for statewide volume of the SCID
2 screening test concomitant with each milestone described
3 in items (i) through (iv) of this subsection (a-7).

4 It is the goal of this amendatory Act of the 97th General
5 Assembly that the expanded screening for Severe Combined
6 Immunodeficiency Disease begins within 2 years after the
7 effective date of this amendatory Act of the 97th General
8 Assembly. The Department is authorized to implement an
9 additional fee for the screening prior to beginning the testing
10 in order to accumulate the resources for start-up and other
11 costs associated with implementation of the screening and
12 thereafter to support the costs associated with screening and
13 follow-up programs for Severe Combined Immunodeficiency
14 Disease.

15 (a-8) In accordance with the timetable specified in this
16 subsection (a-8), provide all newborns with expanded screening
17 tests for the presence of certain Lysosomal Storage Disorders
18 known as Mucopolysaccharidosis I (Hurlers) and
19 Mucopolysaccharidosis II (Hunters). The testing shall begin
20 within 12 months following the occurrence of all of the
21 following:

22 (i) the establishment and verification of relevant and
23 appropriate performance specifications as defined under
24 the federal Clinical Laboratory Improvement Amendments and
25 regulations thereunder for Federal Drug
26 Administration-cleared or in-house developed methods,

1 performed under an institutional review board approved
2 protocol, if required;

3 (ii) the availability of quality assurance testing and
4 comparative threshold values for each screening test and
5 accompanying disorder;

6 (iii) the acquisition and installment by the
7 Department of the equipment necessary to implement the
8 initial pilot and expanded statewide volume of screening
9 tests for each disorder;

10 (iv) establishment of precise threshold values
11 ensuring defined disorder identification for each
12 screening test;

13 (v) authentication of pilot testing achieving each
14 milestone described in items (i) through (iv) of this
15 subsection (a-8) for each disorder screening test; and

16 (vi) authentication achieving potentiality of high
17 throughput standards for statewide volume of each disorder
18 screening test concomitant with each milestone described
19 in items (i) through (iv) of this subsection (a-8).

20 It is the goal of this amendatory Act of the 97th General
21 Assembly that the expanded screening for the specified
22 Lysosomal Storage Disorders begins within 3 years after the
23 effective date of this amendatory Act of the 97th General
24 Assembly. The Department is authorized to implement an
25 additional fee for the screening prior to beginning the testing
26 in order to accumulate the resources for start-up and other

1 costs associated with implementation of the screening and
2 thereafter to support the costs associated with screening and
3 follow-up programs for the specified Lysosomal Storage
4 Disorders.

5 (b) Maintain a registry of cases including information of
6 importance for the purpose of follow-up services to prevent
7 mental retardation.

8 (c) Supply the necessary metabolic treatment formulas
9 where practicable for diagnosed cases of amino acid metabolism
10 disorders, including phenylketonuria, organic acid disorders,
11 and fatty acid oxidation disorders for as long as medically
12 indicated, when the product is not available through other
13 State agencies.

14 (d) Arrange for or provide public health nursing, nutrition
15 and social services and clinical consultation as indicated.

16 (e) Require that all specimens collected pursuant to this
17 Act or the rules and regulations promulgated hereunder be
18 submitted for testing to the nearest Department of Public
19 Health laboratory designated to perform such tests. The
20 Department may develop a reasonable fee structure and may levy
21 fees according to such structure to cover the cost of providing
22 this testing service. Fees collected from the provision of this
23 testing service shall be placed in a special fund in the State
24 Treasury, hereafter known as the Metabolic Screening and
25 Treatment Fund. Other State and federal funds for expenses
26 related to metabolic screening, follow-up and treatment

1 programs may also be placed in such Fund. Moneys shall be
2 appropriated from such Fund to the Department of Public Health
3 solely for the purposes of providing metabolic screening,
4 follow-up and treatment programs. Nothing in this Act shall be
5 construed to prohibit any licensed medical facility from
6 collecting additional specimens for testing for metabolic or
7 neonatal diseases or any other diseases or conditions, as it
8 deems fit. Any person violating the provisions of this
9 subsection (e) is guilty of a petty offense.

10 (Source: P.A. 95-695, eff. 11-5-07.)

11 Section 99. Effective date. This Act takes effect upon
12 becoming law.
