14 adequate rate of depreciation of the several classes of  
15 property for each public utility; and each public utility shall

26 utility's rates for service, the Commission may determine not

1 to use, in determining the depreciation expense component of  
2 the public utility's rates for service, the rates of  
3 depreciation established pursuant to subsection (c), if the  
4 Commission in that proceeding finds based on the record that  
5 different rates of depreciation are required to adequately  
6 reflect depreciation, obsolescence and the progress of the  
7 arts, and fixes by order and uses for purposes of that  
8 proceeding new rates of depreciation to be thereafter employed  
9 by the electric public utility or gas public utility until the
