23 the completion of 6 full mouth supragingival scaling  
24 procedures; and (IV) issue a certificate of completion  
25 of the training program, which must be kept on file at  
26 the dental office. A dental assistant must have

1           successfully completed an approved coronal polishing  
2           course prior to taking the coronal scaling course. A  
3           dental assistant performing these functions shall be  
4           limited to the use of hand instruments only. In  
5           addition, coronal scaling as described in this  
6           paragraph shall only be utilized on patients who are  
7           eligible for Medicaid or who are uninsured and whose  
8           household income is not greater than 200% of the  
9           federal poverty level. A dentist may not supervise more  
10          than 2 dental assistants at any one time for the task  
11          of coronal scaling. This paragraph is inoperative on  
12          and after January 1, 2021.

13          The limitations on the number of dental assistants a  
14          dentist may supervise contained in items (2), (4), and (7)  
15          of this paragraph (g) mean a limit of 4 total dental  
16          assistants or dental hygienists doing expanded functions  
17          covered by these Sections being supervised by one dentist.

16 continue such practice for a period specified in writing by  
17 the Department.

18 The applicant shall only be entitled to perform such  
19 acts as may be prescribed by and incidental to his or her

21 otherwise engage in the practice of dentistry in this  
22 State.

23 The authority to practice shall terminate immediately  
24 upon:

25 (1) the decision of the Department that the  
26 applicant has failed the examination; or

1 (2) denial of licensure by the Department; or

2 (3) withdrawal of the application.

7 Sec. 18.1. Public health dental supervision  
8 responsibilities.

9 (a) When working together in a public health supervision  
10 relationship, dentists and public health dental hygienists  
11 shall enter into a public health supervision agreement. The  
12 dentist providing public health supervision must:

13 (1) be available to provide an appropriate level of  
14 contact, communication, collaboration, and consultation  
15 with the public health dental hygienist and must meet  
16 in-person with the public health dental hygienist at least  
17 quarterly for review and consultation;

18 (2) have specific standing orders or policy guidelines  
19 for procedures that are to be carried out for each location  
20 or program, although the dentist need not be present when  
21 the procedures are being performed;

22 (3) provide for the patient's additional necessary  
23 care in consultation with the public health dental  
24 hygienist;

25 (4) file agreements and notifications as required; and

1           (5) include procedures for creating and maintaining  
2           dental records, including protocols for transmission of  
3           all records between the public health dental hygienist and  
4           the dentist following each treatment, which shall include a  
5           notation regarding procedures authorized by the dentist  
6           and performed by the public health dental hygienist and the  
7           location where those records are to be kept.

8           Each dentist and hygienist who enters into a public health  
9           supervision agreement must document and maintain a copy of any  
10          change or termination of that agreement.

11          Dental records shall be owned and maintained by the  
12          supervising dentist for all patients treated under public  
13          health supervision, unless the supervising dentist is an  
14          employee of a public health clinic or federally qualified  
15          health center, in which case the public health clinic or  
16          federally qualified health center shall maintain the records.

17          If a dentist ceases to be employed or contracted by the  
18          facility, the dentist shall notify the facility administrator  
19          that the public health supervision agreement is no longer in  
20          effect. A new public health supervision agreement is required  
21          for the public health dental hygienist to continue treating  
22          patients under public health supervision.

23          A dentist entering into an agreement under this Section may  
24          supervise and enter into agreements for public health  
25          supervision with 2 public health dental hygienists. This shall  
26          be in addition to the limit of 4 dental hygienists per dentist

1 set forth in subsection (g) of Section 18 of this Act.

2 (b) A public health dental hygienist providing services  
3 under public health supervision may perform only those duties  
4 within the accepted scope of practice of dental hygiene, as  
5 follows:

6 (1) the operative procedures of dental hygiene,  
7 consisting of oral prophylactic procedures, including  
8 prophylactic cleanings, application of fluoride, and  
9 placement of sealants;

10 (2) the exposure and processing of x-ray films of the  
11 teeth and surrounding structures; and

12 (3) such other procedures and acts as shall be  
13 prescribed by rule of the Department.

14 Any patient treated under this subsection (b) must be  
15 examined by a dentist before additional services can be  
16 provided by a public health dental hygienist. However, if the  
17 supervising dentist, after consultation with the public health  
18 hygienist, determines that time is needed to complete an  
19 approved treatment plan on a patient eligible under this  
20 Section, then the dentist may instruct the hygienist to  
21 complete the remaining services prior to an oral examination by  
22 the dentist. Such instruction by the dentist to the hygienist  
23 shall be noted in the patient's records. Any services performed  
24 under this exception must be scheduled in a timely manner and  
25 shall not occur more than 30 days after the first appointment  
26 date.

1 (c) A public health dental hygienist providing services  
2 under public health supervision must:

3 (1) provide to the patient, parent, or guardian a  
4 written plan for referral or an agreement for follow-up  
5 that records all conditions observed that should be called  
6 to the attention of a dentist for proper diagnosis;

7 (2) have each patient sign a permission slip or consent  
8 form that informs them that the service to be received does  
9 not take the place of regular dental checkups at a dental  
10 office and is meant for people who otherwise would not have  
11 access to the service;

12 (3) inform each patient who may require further dental  
13 services of that need;

14 (4) maintain an appropriate level of contact and  
15 communication with the dentist providing public health  
16 supervision; and

17 (5) complete an additional 4 hours of continuing  
18 education in areas specific to public health dentistry  
19 yearly.

20 (d) Each public health dental hygienist who has rendered  
21 services under subsections (c), (d), and (e) of this Section  
22 must complete a summary report at the completion of a program  
23 or, in the case of an ongoing program, at least annually. The  
24 report must be completed in the manner specified by the  
25 Division of Oral Health in the Department of Public Health  
26 including information about each location where the public

1 health dental hygienist has rendered these services. The public  
2 health dental hygienist must submit the form to the dentist  
3 providing supervision for his or her signature before sending  
4 it to the Division.

5 (e) Public health dental hygienists providing services  
6 under public health supervision may be compensated for their  
7 work by salary, honoraria, and other mechanisms by the  
8 employing or sponsoring entity. Nothing in this Act shall  
9 preclude the entity that employs or sponsors a public health  
10 dental hygienist from seeking payment, reimbursement, or other  
11 source of funding for the services provided.

12 (f) This Section is repealed on January 1, 2021.
