12 people, or about one out of every 8 Illinois residents.

13 (2) The Illinois Department of Public Aid pays for
14 2 out of every 5 births in this State.

15 (3) The average Illinois hospital receives 12% of

24 hospitals to provide care for which they are not paid.

25 (6) Illinois hospitals are significant contributors
26 to the Illinois economy and employ over 200,000 people.

27 (7) A Medicaid program that pays reasonably for
28 services promotes and enhances a strong health care
29 system, thereby improving access to quality health care
30 for all the people of Illinois.

31 ascertain the adequacy of rates for physician services.

32 (e) The Task Force shall report its findings and
33 recommendations to the Governor and the General Assembly on
34 or before January 1, 2003. The Task Force's report shall

1 include, but need not be limited to, an evaluation of the
2 adequacy of Medicaid hospital and physician payment rates by
3 examining the following:

4 (1) Payment-to-cost comparisons for Medicaid
5 inpatient and outpatient hospital services.

6 (2) The impact of Medicaid hospital payments on
7 hospital patient care margins.

22 (f) The Task Force shall retain independent experts,
23 with experience in health care finance and economics, to
24 assist it in conducting its study and preparing its report.

25 (g) This Section is repealed on January 1, 2004.

26 Section 99. Effective date. This Act takes effect upon
27 becoming law.
