Before January 1, 2022, the information required under this subparagraph shall be provided in person by the health care professional providing medical

forensic services directly to the sexual assault survivor.

On and after January 1, 2022, the information required under this subparagraph shall be provided in person by the qualified medical provider providing medical forensic services directly to the sexual assault survivor.

The written information provided shall be the information created in accordance with Section 10 of this Act.

(B) Following the discussion regarding the evidence-based guidelines for evidence collection in accordance with subparagraph (A), evidence collection must be completed at the sexual assault survivor's request. A sexual assault nurse examiner conducting an examination using the Illinois State Police Sexual Assault Evidence Collection Kit may do so without the presence or participation of a physician.

(2) Appropriate oral and written information concerning the possibility of infection, sexually transmitted infection, including an evaluation of the sexual assault survivor's risk of contracting human immunodeficiency virus (HIV) from sexual assault, and pregnancy resulting from sexual assault.

(3) Appropriate oral and written information concerning accepted medical procedures, laboratory tests,

(3.5) After ~~after~~ a medical evidentiary or physical examination, access to a shower at no cost, unless showering facilities are unavailable.†

(4) An amount of medication, including HIV prophylaxis, for treatment at the hospital or approved pediatric health care facility and after discharge as is deemed appropriate by the attending physician, an advanced practice registered nurse, or a physician assistant in accordance with the Centers for Disease Control and Prevention guidelines and consistent with the hospital's or approved pediatric health care facility's current approved protocol for sexual assault survivors.

(5) Photo documentation of the sexual assault survivor's injuries, anatomy involved in the assault, or other visible evidence on the sexual assault survivor's body to supplement the medical forensic history and written documentation of physical findings and evidence beginning July 1, 2019. Photo documentation does not replace written documentation of the injury.

(6) Written and oral instructions indicating the need for follow-up examinations and laboratory tests after the sexual assault to determine the presence or absence of sexually transmitted infection.

(7) Referral by hospital or approved pediatric health care facility personnel for appropriate counseling.

(8) Medical advocacy services provided by a rape crisis counselor whose communications are protected under Section 8-802.1 of the Code of Civil Procedure, if there is a memorandum of understanding between the hospital or approved pediatric health care facility and a rape crisis center. With the consent of the sexual assault survivor, a rape crisis counselor shall remain in the exam room during the medical forensic examination.

(a-7) By January 1, 2022, every hospital with a treatment plan approved by the Department shall employ or contract with a qualified medical provider to initiate medical forensic services to a sexual assault survivor within 90 minutes of the patient presenting to the treatment hospital or treatment hospital with approved pediatric transfer. The provision of

medical forensic services by a qualified medical provider shall not delay the provision of life-saving medical care.

(b) Any person who is a sexual assault survivor who seeks medical forensic services or follow-up healthcare under this Act shall be provided such services without the consent of any parent, guardian, custodian, surrogate, or agent. If a sexual assault survivor is unable to consent to medical forensic services, the services may be provided under the Consent by Minors to Medical Procedures Act, the Health Care Surrogate Act, or other applicable State and federal laws.

(b-5) Every hospital or approved pediatric health care facility providing medical forensic services to sexual assault survivors shall issue a voucher to any sexual assault survivor who is eligible to receive one in accordance with Section 5.2 of this Act. Section 20. The Sexual Assault Evidence Submission Act is

amended by adding Section 50 as follows:

(725 ILCS 202/50 new)

Sec. 50. Sexual assault evidence tracking system.

(a) On June 26, 2018, the Sexual Assault Evidence Tracking and Reporting Commission issued its report as required under Section 43. It is the intention of the General Assembly in enacting the provisions of this amendatory Act of the 101st General Assembly to implement the recommendations of the Sexual Assault Evidence Tracking and Reporting Commission set forth in that report in a manner that utilizes the current resources of law enforcement agencies whenever possible and that is adaptable to changing technologies and circumstances.

(a-1) Due to the complex nature of a statewide tracking system for sexual assault evidence and to ensure all stakeholders, including, but not limited to, victims and their designees, health care facilities, law enforcement agencies, forensic labs, and State's Attorneys offices are integrated, the Commission recommended the purchase of an electronic off-the-shelf tracking system. The system must be able to communicate with all stakeholders and provide real-time information to a victim or his or her designee on the status of the evidence that was collected. The sexual assault evidence tracking system must:

(1) be electronic and web-based;

(2) be administered by the Department of State Police;

(3) have help desk availability at all times;

(4) ensure the law enforcement agency contact information is accessible to the victim or his or her designee through the tracking system, so there is contact information for questions;

(5) have the option for external connectivity to evidence management systems, laboratory information management systems, or other electronic data systems already in existence by any of the stakeholders to minimize additional burdens or tasks on stakeholders;

(6) allow for the victim to opt in for automatic notifications when status updates are entered in the system, if the system allows;

(7) include at each step in the process, a brief explanation of the general purpose of that step and a general indication of how long the step may take to complete;

(8) contain minimum fields for tracking and reporting, as follows:

(A) for sexual assault evidence kit vendor fields:

(i) each sexual evidence kit identification number provided to each health care facility; and

(ii) the date the sexual evidence kit was sent to the health care facility.

(B) for health care facility fields:

(i) the date sexual assault evidence was

collected; and

(ii) the date notification was made to the law enforcement agency that the sexual assault evidence was collected.

(C) for law enforcement agency fields:

(i) the date the law enforcement agency took possession of the sexual assault evidence from the health care facility, another law enforcement agency, or victim if he or she did not go through a health care facility;

(ii) the law enforcement agency complaint number;

(iii) if the law enforcement agency that takes possession of the sexual assault evidence from a health care facility is not the law enforcement agency with jurisdiction in which the offense occurred, the date when the law enforcement agency notified the law enforcement agency having jurisdiction that the agency has sexual assault evidence required under subsection (c) of Section 20 of the Sexual Assault Incident Procedure Act;

(iv) an indication if the victim consented for analysis of the sexual assault evidence;

(v) if the victim did not consent for analysis of the sexual assault evidence, the date on which the law enforcement agency is no longer required to

store the sexual assault evidence;

(vi) a mechanism for the law enforcement agency to document why the sexual assault evidence was not submitted to the laboratory for analysis, if applicable;

(vii) the date the law enforcement agency received the sexual assault evidence results back from the laboratory;

(viii) the date statutory notifications were made to the victim or documentation of why notification was not made; and

(ix) the date the law enforcement agency turned over the case information to the State's Attorney office, if applicable.

(D) for forensic lab fields:

(i) the date the sexual assault evidence is received from the law enforcement agency by the forensic lab for analysis;

(ii) the laboratory case number, visible to the law enforcement agency and State's Attorney office; and

(iii) the date the laboratory completes the analysis of the sexual assault evidence.

(E) for State's Attorney office fields:

(i) the date the State's Attorney office received the sexual assault evidence results from

the laboratory, if applicable; and

(ii) the disposition or status of the case.

(a-2) The Commission also developed guidelines for secure electronic access to a tracking system for a victim, or his or her designee to access information on the status of the evidence collected. The Commission recommended minimum guidelines in order to safeguard confidentiality of the information contained within this statewide tracking system. These recommendations are that the sexual assault evidence tracking system must:

(1) allow for secure access, controlled by an administering body who can restrict user access and allow different permissions based on the need of that particular user and health care facility users may include out-of-state border hospitals, if authorized by the Department of State Police to obtain this State's kits from vendor;

(2) provide for users, other than victims, the ability to provide for any individual who is granted access to the program their own unique user ID and password;

(3) provide for a mechanism for a victim to enter the system and only access his or her own information;

(4) enable a sexual assault evidence to be tracked and identified through the unique sexual assault evidence kit identification number or barcode that the vendor applies to each sexual assault evidence kit per the Department of

State Police's contract;

(5) have a mechanism to inventory unused kits provided to a health care facility from the vendor;

(6) provide users the option to either scan the bar code or manually enter the sexual assault evidence kit number into the tracking program;

(7) provide a mechanism to create a separate unique identification number for cases in which a sexual evidence kit was not collected, but other evidence was collected;

(8) provide the ability to record date, time, and user ID whenever any user accesses the system;

(9) provide for real-time entry and update of data;

(10) contain report functions including:

(A) health care facility compliance with applicable laws;

(B) law enforcement agency compliance with applicable laws;

(C) law enforcement agency annual inventory of cases to each State's Attorney office; and

(D) forensic lab compliance with applicable laws;  
and

(11) provide automatic notifications to the law enforcement agency when:

(A) a health care facility has collected sexual assault evidence;

(B) unreleased sexual assault evidence that is

being stored by the law enforcement agency has met the minimum storage requirement by law; and

(C) timelines as required by law are not met for a particular case, if not otherwise documented.

(b) The Department shall develop rules to implement a sexual assault evidence tracking system that conforms with subsections (a-1) and (a-2) of this Section. The Department shall design the criteria for the sexual assault evidence tracking system so that, to the extent reasonably possible, the system can use existing technologies and products, including, but not limited to, currently available tracking systems. The sexual assault evidence tracking system shall be operational and shall begin tracking and reporting sexual assault evidence no later than one year after the effective date of this amendatory Act of the 101st General Assembly. The Department may adopt additional rules as it deems necessary to ensure that the sexual assault evidence tracking system continues to be a useful tool for law enforcement.

(c) A treatment hospital, a treatment hospital with approved pediatric transfer, an out-of-state hospital approved by the Department of Public Health to receive transfers of Illinois sexual assault survivors, or an approved pediatric health care facility defined in Section 1a of the Sexual Assault Survivors Emergency Treatment Act shall participate in the sexual assault evidence tracking system created under this Section and in accordance with rules adopted under subsection

(b), including, but not limited to, the collection of sexual assault evidence and providing information regarding that evidence, including, but not limited to, providing notice to law enforcement that the evidence has been collected.

(d) The operations of the sexual assault evidence tracking system shall be funded by moneys appropriated for that purpose from the State Crime Laboratory Fund and funds provided to the Department through asset forfeiture, together with such other funds as the General Assembly may appropriate.

(e) To ensure that the sexual assault evidence tracking system is operational, the Department may adopt emergency rules to implement the provisions of this Section under subsection (ff) of Section 5-45 of the Illinois Administrative Procedure Act.

(f) Information, including, but not limited to, evidence and records in the sexual assault evidence tracking system is exempt from disclosure under the Freedom of Information Act.

Section 25. The Unified Code of Corrections is amended by changing Section 5-9-1.4 as follows:

substantially funded by a unit or combination of units of local government or the State of Illinois, which regularly employs at least one person engaged in the analysis of controlled substances, cannabis, methamphetamine, or steroids for criminal justice agencies in criminal matters and provides testimony with respect to such examinations.

(b) When a person has been adjudged guilty of an offense in violation of the Cannabis Control Act, the Illinois Controlled Substances Act, the Methamphetamine Control and Community Protection Act, or the Steroid Control Act, in addition to any other disposition, penalty or fine imposed, a criminal laboratory analysis fee of \$100 for each offense for which he was convicted shall be levied by the court. Any person placed on probation pursuant to Section 10 of the Cannabis Control Act, Section 410 of the Illinois Controlled Substances Act, Section 70 of the Methamphetamine Control and Community Protection Act, or Section 10 of the Steroid Control Act or placed on supervision for a violation of the Cannabis Control Act, the Illinois Controlled Substances Act or the Steroid Control Act shall be assessed a criminal laboratory analysis fee of \$100 for each offense for which he was charged. Upon verified petition of the person, the court may suspend payment of all or part of the fee if it finds that the person does not have the ability to pay the fee.

(c) In addition to any other disposition made pursuant to the provisions of the Juvenile Court Act of 1987, any minor

adjudicated delinquent for an offense which if committed by an adult would constitute a violation of the Cannabis Control Act, the Illinois Controlled Substances Act, the Methamphetamine Control and Community Protection Act, or the Steroid Control Act shall be assessed a criminal laboratory analysis fee of \$100 for each adjudication. Upon verified petition of the minor, the court may suspend payment of all or part of the fee if it finds that the minor does not have the ability to pay the fee. The parent, guardian or legal custodian of the minor may pay some or all of such fee on the minor's behalf.

treasurer of the unit of local government that performed the analysis if that unit of local government has established a crime laboratory fund, or to the State Crime Laboratory Fund if the analysis was performed by a laboratory operated by the Illinois State Police. If the analysis was performed by a crime laboratory funded by a combination of units of local government, the analysis fee shall be forwarded to the treasurer of the county where the crime laboratory is situated if a crime laboratory fund has been established in that county. If the unit of local government or combination of units of local government has not established a crime laboratory fund, then the analysis fee shall be forwarded to the State Crime Laboratory Fund. The clerk of the circuit court may retain the amount of \$10 from each collected analysis fee to offset administrative costs incurred in carrying out the clerk's responsibilities under this Section.

(g) Fees deposited into a crime laboratory fund created pursuant to paragraphs (1) or (2) of subsection (e) of this Section shall be in addition to any allocations made pursuant to existing law and shall be designated for the exclusive use of the crime laboratory. These uses may include, but are not limited to, the following:

(1) costs incurred in providing analysis for controlled substances in connection with criminal investigations conducted within this State;

(2) purchase and maintenance of equipment for use in

performing analyses; and

(h) Fees deposited in the State Crime Laboratory Fund created pursuant to paragraph (3) of subsection (d) of this Section shall be used by State crime laboratories as designated by the Director of State Police. These funds shall be in addition to any allocations made pursuant to existing law and shall be designated for the exclusive use of State crime laboratories or for the sexual assault evidence tracking system created under Section 50 of the Sexual Assault Evidence Submission Act. These uses may include those enumerated in subsection (g) of this Section.
