(3) the covered person has exhausted the health carrier's internal grievance process as set forth in this Act;

(4) for appeals relating to a determination based on treatment being experimental or investigational, the requested health care service or treatment that is the subject of the adverse determination or final adverse determination is a covered benefit under the covered person's health benefit plan except for the health carrier's determination that the service or treatment is experimental or investigational for a particular medical condition and is not explicitly listed as an excluded benefit under the covered person's health benefit plan with the health carrier and that the covered person's health care provider, who ordered or provided the services in question and who is licensed under the Medical Practice Act of 1987 ~~is a physician licensed to practice medicine in all its branches~~, has certified that one of the following situations is applicable:
