The Illinois Department of Juvenile Justice has two goals:

- Make Illinois communities safer for all residents.
- Foster better life outcomes for youth in the Department's custody by providing appropriate and effective rehabilitation.

In March 2015, the Department unveiled its comprehensive strategic plan focusing on five core principles:

- Right-Size: Reduce the use of secure custody for low-risk youth
- Rehabilitate: Improve programs to meet the needs of high-risk youth
- Reintegrate: Improve programs to ensure successful reentry
- Respect: Create a safe and respectful environment for youth and staff
- Report: Increase transparency and accountability

This Quarterly Report is part of the Department's commitment to enhance reporting and transparency. This allows the Department to more effectively inform stakeholders and the public about operations and outcomes.

Federal Prison Rape Elimination Act (PREA) standards dictate direct care staffing ratios of 8 to 1 staff to youth during waking hours and 16 to 1 staff to youth during non-waking hours. In October 2017, the Federal government provided clarification on the staffing standards, rendering calculation of a staffing ratio no longer meaningful. Instead, the standard is set as the ratio of constant interactions between youth and staff that must be met. Nevertheless, calculated ratios are still provided to give an idea of facility staffing.

Staffing ratios are calculated by taking the average number of security staff reporting for each shift for the month and dividing by the average daily population of youth for the month.

Data for staffing ratios is sourced from the facilities and Youth 360. Data is current for May 2021.
